## ASSIGNMENT

WHEREAS Tactical Air Games, Inc. (hereinafter "Assignor") is a corporation organized under the laws of the State of Indiana and has a principle place of business at 2717 Ferguson Road, Fort Wayne, Indiana 46809;

WHEREAS Assignor is the owner of the entire right, title, and interest in the invention disclosed in U.S. Patent Application Serial No. 14/157,336 entitled "PNEUMATIC SYSTEM AND METHOD FOR SIMULATED FIREARM TRAINING" and in all divisions, continuations, and continuations-in-part thereof, all previously filed provisional applications for which the above-identified application seeks the benefit of an earlier filing date under 35 U.S.C. § 119, all reissues or extensions of Letters Patent or Patents granted on the above-identified application, and in all corresponding international applications and applications filed in countries foreign to the United States, and in all patents issuing thereon in the United States and foreign countries.

WHEREAS Tiberius Technology, LLC (hereinafter "Assignee") is a limited liability company organized under the laws of the State of Indiana and has a principle place of business at 2727 Ferguson Road, Fort Wayne, Indiana 46809;

WHEREAS Assignee desires to secure the entire right, title and interest in the invention.

THEREFORE, in consideration of \$1.00 and other good and valuable consideration paid to Assignor by Assignee, the receipt and sufficiency of which is hereby acknowledged, ASSIGNOR HEREBY ASSIGNS TO ASSIGNEE:

The entire right, title, and interest in the invention, in the above-identified United States patent application and in all divisions, continuations, and continuations-in-part thereof, all previously filed provisional applications for which the above-identified application seeks the benefit of an earlier filing date under 35 U.S.C. § 119, all reissues or extensions of Letters Patent or Patents granted on the above-identified application, and in all corresponding international applications and applications filed in countries foreign to the United States, and in all patents issuing thereon in the United States and foreign countries.

The right to file foreign patent applications on the invention in its own name, wherever such right may be legally exercised, including the right to claim the benefits of the International Convention for such applications.
