WHEREAS, Assignor is the owner by assignment or otherwise of all right, title and interest in and to new and useful improvements disclosed and/or claimed in the letters patent and/or applications therefor listed at **Exhibit A** (which new and useful improvements are hereinafter referred to as "Inventions" and which letters patent and/or applications therefor are hereinafter referred to as "Patent Applications.")

Furthermore, Assignor hereby covenants and agrees (i) to and with Assignee, its successors, legal representatives and assigns, that Assignor will sign all papers and documents and do all acts necessary or required to be done for the procurement, maintenance, enforcement and defense of the Inventions, the Applications for Letters Patent, and Letters Patent, without charge to Assignee, its successors, legal representatives and assigns, whenever counsel of Assignee, or counsel of its successors, legal representatives and assigns, shall advise; (ii) that any proceeding in connection with said Inventions, or said Applications for Letters Patent, or said Letters Patent in any country, including but not limited to interference proceedings, is lawful and desirable; and (iii) that any non-provisionals, divisions, continuations or continuations-in-part of any Application for Letters Patent, or any reissue, reexamination or extension of any Letters Patent, is lawful and desirable.
