ASSIGNMENT OF PATENTS AND PATENT APPLICATIONS

THIS ASSIGNMENT OF PATENTS AND PATENT APPLICATIONS dated as of August 8, 2018 (this "Assignment") by Microsemi Corporation ("Assignor"), a Delaware corporation, having a place of business at One Enterprise, Aliso Viejo, CA 92656, in favor of Polaris PowerLED Technologies, LLC, a Delaware limited liability company ("Assignee"), having its address at 32932 Pacific Coast Highway, #14-498, Dana Point, CA 92629.

WHEREAS, Assignor is the owner of certain patents and patent applications in the United States Patent and Trademark Office, as identified in Exhibit 1 attached hereto (defined herein as the "Patents");

WHEREAS, it is the intention of Assignor and Assignee that Assignee own the entire right, title and interest in and to the Patents; and

WHEREAS the Patents are currently held by Assignor and are to be transferred and assigned to Assignee.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby mutually acknowledged, Assignor agrees to and does hereby sell, assign, transfer, set over, grant, and convey unto Assignee, its successors and assigns, the entire and exclusive right, title and interest in and to the Patents, including all inventions in the United States described therein, and the applications and patents issuing from applications listed therein in the United States, and any United States applications and patents claiming priority to any of those listed therein, and any United States applications and patents from which those listed therein may claim priority to, and any other continuations, continuations-in-part, divisionals, reissues, extensions, reexamination certificates of the Patents or based thereon, together with all rights of enforcement and choses in action related thereto, including, without limitation, rights to sue and claims for damages by reason of past, present or future infringement of any of the Patents, with the right to sue for, settle, recover, and collect the same, and any and all other corresponding rights that have been, or hereafter may be, secured with respect to the Patents. Assignor further agrees to execute and has executed all documents, instruments and papers and to perform all acts, without any further consideration, as reasonably requested by Assignee, its successors and assigns, to perfect in Assignee, its successors and assigns, the foregoing rights, title and interests, including the execution of any related patent application documents.

Assignor hereby authorizes and requests the Director of the United States Patent and Trademark Office to issue the United States Letters Patents resulting from all the United States applications in the Patents to Assignee, its successors and assigns.

This Assignment shall be governed by, and construed in accordance with the laws of the State of Delaware, United States, without regard to conflicts of law principles.

This Assignment may be executed in two or more counterparts, each of which will be deemed to be an original copy of this Assignment and all of which, when taken together, will be deemed to constitute one and the same agreement. Any signed counterpart of this Assignment may be delivered by facsimile or other form of electronic transmission (e.g., pdf), with the same legal force and effect as delivery of an originally signed agreement.

IN WITNESS WHEREOF, Assignor has executed this Assignment as an instrument under seal effective as of this 21 day of August, 2018.
