Pursuant to our obligation to **LOOS MACHINE & AUTOMATION** (hereinafter referred to as "Assignee"), a Wisconsin corporation having its principal place of business at:

and for other valuable and sufficient consideration, receipt whereof is hereby acknowledged, I:

Brian Kaldunski

confirm my obligation to and hereby sell, assign and convey, unto Assignee, its successors and assigns, my entire right, title and interest -

(1) in and to inventions described in a patent application titled "A VALVE FOR A CLEAN IN PLACE SYSTEM" for which I filed United States Patent Application No. 16/117,417 on August 30, 2018 (Attorney Docket No. 023562-9004-US01) (hereinafter the "U.S. utility patent application").

(2) in and to the U.S. utility patent application, in and to all other patent applications (including divisional, continuation, continuation-in-part, and reissue applications) based upon said inventions, and in and to the patent or patents to be granted thereon, to the full end of the term or terms for which said patent or patents may be granted;

(3) in and to all patent applications on said invention now or hereafter filed in countries foreign to the United States of America, and in and to any and all patents granted on said applications to the full end of the terms for which said patents may be granted; and

(4) under the International Convention in respect to the U.S. utility patent application and agree that any patent applications of any foreign countries which may be filed shall be filed in the name of our Assignee with a claim to priority based on the U.S. utility patent application.
