ASSIGNMENT

For valuable consideration, the sufficiency of which is hereby acknowledged, **Gavin Stephen HACKETT**, residing at 29 Port Line Road, Brooklands, Milton Keynes, MK 10, United Kingdom, and **Shilpa PALAN**, residing at 17 Broad field road, Yarnton, Oxfordshire, OX5 1UL, United Kingdom (hereinafter Assignors) confirm that they have assigned and hereby assign to **IPSEN BIOINNOVATION LIMITED**, a private limited company existing under the laws of England & Wales (Company Registration No. 5480340) and having a place of business at 102 Park Drive, Milton Park, Oxford, OX14 4RY, United Kingdom, its successors and assigns (hereinafter Assignee), the entire right, title and interest throughout the world in the inventions and discoveries disclosed in:

Priority Patent Application in United Kingdom No. GB1517450.1 entitled "Method" and filed on October 2, 2015, and

International Patent Application No. PCT/EP2016/072986 entitled "Method for Purifying Clostridial Neurotoxin", filed on September 27, 2016;

Both Priority Patent application and International Patent Application together referred to as the "Application(s)";

this assignment including: (1) said Application(s) and any other application, and/or provisional application, which has been or shall be filed for said inventions in United Kingdom or any other country of the world, including any and all divisional, continuing, or substitute applications based thereon; (2) any and all patents, utility models and design registrations granted for any of said inventions in United Kingdom and/or in any other country of the world, and all registrations, confirmations, renewals, reexaminations, reissues, Patent Term Extensions and extensions thereof; (3) the right to claim priority based on the filing date of said Application(s) under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, the Paris Convention, and all other treaties of like purposes; (4) the right to apply in all countries in Assignors' names or in its own name for patents, utility models, design registrations and like rights of exclusion and for inventor(s) certificate(s) for said inventions; and (5) the right to bring, make, oppose, defend and/or appeal proceedings, claims or actions and obtain relief (and to retain any damages recovered) in respect of any infringement, or any other cause of action whether arising from ownership or otherwise, in respect of any such patent

applications, patents or inventions, whether occurring before on or after the date of this Assignment.

Assignors hereby authorize and request the issuing authority to issue any and all patents claiming said inventions to Assignee or its successors and assigns. Assignors further agree that, upon request and without further compensation, but at no out-of-pocket expense to Assignors and Assignors' successors and/or assigns, will perform such lawful acts and will sign such further applications, assignments, Preliminary Statements and other lawful documents as Assignee may reasonably request to effectuate fully this assignment, including by way of example, but not of limitation, the following acts:

- A. Prompt execution of all lawful oaths, affidavits and/or supplemental oaths required or deemed advisable by Assignee to further the prosecution of any application or applications for letters patent relating to the subject matter of this Assignment;
- B. To cooperate to the best of our ability in the execution of all lawful documents, the production of evidence, and the giving of testimony in interference, opposition, nullification or infringement proceedings involving the subject matter of this Assignment.

Assignors further agree and desire that this assignment will have effect from the filing date of the above-identified Application(s).

This Assignment shall be governed by the laws of England & Wales.
