I additionally authorize said Assignee to file applications for the aforesaid in any country or organization, to be held and enjoyed by said Assignee or its successors, assigns, nominees or legal representatives, to the full end of the term or terms for which said Letters Patent respectively may be granted, reissued or extended, as fully and entirely as the same would have been held and enjoyed by me had any assignment and transfer not been made; I authorize said Assignee to secure all rights to said applications in its name to the extent that such applications are currently pending or have already issued as Letters Patent. I also hereby convey any and all right for past damages or other right of action or remedy for infringement of any of the aforesaid to said Assignee.

I hereby covenant that I have the full right to convey the entire interest herein assigned, and that I have not executed and will not execute any agreement in conflict herewith.
