ASSIGNMENT

WHEREAS, I, JAMES S. LINDARS, of 904 Weaver Road, Huntington, Vermont 05462, have invented certain new and useful improvements in a DESIGN FOR A CAP CARRIER (the "Design"), for which I have made application for Design Letters Patent of the United States and which application was filed on December 14, 2005 and has been assigned U.S. Design Patent Application Serial No. 29/244,783 (the "Application"); and

WHEREAS, NEW ERA CAP COMPANY, INC. ("NEW ERA") is desirous of acquiring all interest in the Design and Application, and in any Letters Patent that may be granted therefore and therefrom.

NOW, THEREFORE, in consideration of the sum of One Dollar (\$1.00), and other good and valuable consideration in hand paid, the receipt of which I hereby acknowledge, I do hereby assign, sell and set over to NEW ERA the full and exclusive right, title and interest in and to the Design and the Application, for the United States and all foreign countries, as fully set forth and described in the specification prepared and filed on December 14, 2005, preparatory to obtaining Letters Patent; such Design, Application and Letters Patent to be held and enjoyed by NEW ERA, for its own use and purposes, and for its successors and assigns, to the full end of the term for which such Letters Patent may be granted, as fully and entirely as the same would have been held by me had this assignment not been made.

AND I do hereby authorize and request the Commissioner of Patents and Trademarks to issue such Letters Patent to NEW ERA, as the assignee of the entire right, title and interest thereto.

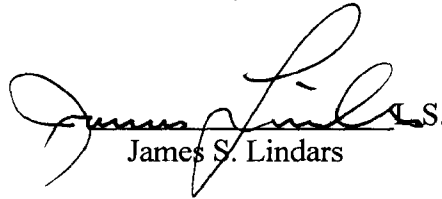

AND I do hereby agree to sign and properly execute such necessary and lawful papers for filing continuations and divisions of such Application, for interference or re-examination proceedings, and/or for obtaining any reissue or reissues of any Letters Patent that may be granted for the Design, as NEW ERA shall hereafter require and prepare at its own expense.

AND I do hereby agree to sign and properly execute, as requested by NEW ERA, such additional instruments of assignment as may be reasonable and necessary to establish NEW ERA's ownership of all rights to the Design and Application, and any Letters Patent that may issue either directly or indirectly therefrom.

AND I further understand that in executing this document, I am transferring my entire interest in and to the Design and Application to NEW ERA, and that the attorney(s) that I have appointed in such Application also represent NEW ERA and any co-inventor(s) identified in the Application. I consent to such multiple representation for the purpose of prosecuting the

Application, and I do hereby authorize such attorney(s) to take all future instructions from NEW ERA. I am unaware of any potential interest that I may have that differs from, or is adverse to, that of NEW ERA with respect to the prosecution of the Application, and I further acknowledge that, prior to executing this document, I did not seek or obtain any legal advice from such attorney(s) with respect to this assignment, and that I have been informed of my right to seek independent counsel of my own choosing and at my own personal expense.

IN TESTIMONY WHEREOF, I hereunto set my hand and affixed my seal as of the 19 day of January 2006.
