**PATENT ASSIGNMENT AGREEMENT**

THIS PATENT ASSIGNMENT AGREEMENT is made as of September 11, 2018, by and between CJJ (ABC), LLC, formerly known as Carjojo (ABC), LLC, a California limited liability company ("Seller"), as Assignee for the Benefit of Creditors of CJJ, Inc., formerly known as Carjojo Corp., a Delaware corporation, and Wejo California Corp., a California corporation ("Buyer"). Seller and Buyer are parties to a certain Asset Purchase Agreement dated as of September 11, 2018 (the "Asset Purchase Agreement"). Capitalized terms used without definitions herein shall have the meanings ascribed to such terms in the Asset Purchase Agreement.

WHEREAS, Seller has agreed to sell to Buyer, and Buyer has agreed to acquire from Seller, all of Seller's rights, title and interests, together with the benefits and privileges hereinafter recited, in all patents and patent applications now or hereafter owned by Seller, including, without limitation, those patents and patent applications identified in Schedule A attached herein (collectively, the "Assigned Patents"); and

WHEREAS, the parties accordingly wish to execute this recordable instrument, assigning all of Seller's right, title and interest in and to the Assigned Patents to Buyer;

NOW, THEREFORE, for valuable consideration set forth in the Asset Purchase Agreement, the receipt and sufficiency of which are hereby acknowledged, Seller and Buyer agree as follows:

1. Seller hereby sells, assigns, transfers, conveys and sets over to Buyer, and its successors and assigns, Seller's entire rights, title, and interests throughout the world in and to the Assigned Patents and the inventions or discoveries disclosed or claimed therein, together with the benefits and privileges in and to said inventions and discoveries, and all provisional, utility, divisional, renewal, substitute, continuation, continuations and continuations-in-part and convention applications thereof, and all letters patent of the United States and any countries, regions, jurisdictions or political and/or economic unions which have been or may be filed therefor or granted thereon, all rights to claim priority therefrom, and all extensions, renewals, reissues or similar forms of protection granted thereof; and any and all income, royalties, and payments now or hereafter due and/or payable with respect to the Assigned Patents. Seller hereby authorizes and requests the Commissioner of Patents and Trademarks of the United States and any and all similar officials of any and all foreign countries to issue or transfer all letters patent for any invention or discovery disclosed or claimed in any Assigned Patents to Buyer and its successors and assigns, in accordance with the terms of this Patent Assignment Agreement, as assignee of the entire rights, title and interests therein, or otherwise as Buyer may direct.

2. Seller hereby further assigns to Buyer all rights to sue and recover for any past, present or future actions, causes of action and rights to recover damages or payments (including lost profits), for infringement or misappropriations of any Assigned Patents or the inventions or discoveries disclosed or claimed therein, whether arising prior to, on or after the Closing Date, as well as the right to take over and continue any and all existing suits related to any Assigned Patents or such inventions or discoveries.

3. Seller hereby authorizes Buyer to file patent applications in any or all countries or groups of countries on any or all of said inventions and discoveries in the name of Buyer or its successors or assigns or otherwise as Buyer may deem advisable, including, without limitation, under the Patent Cooperation Treaty or any other relevant convention or treaty or otherwise.

4. This Patent Assignment Agreement is subject to the terms and conditions of the Asset Purchase Agreement and this Patent Assignment Agreement shall not be deemed to limit, enlarge or extinguish any obligation of Seller or Buyer under the Asset Purchase Agreement, all of which obligations shall survive the delivery of this Patent Assignment Agreement in accordance with the terms of the Asset Purchase Agreement, and that to the extent there is any conflict between this Patent Assignment Agreement and the terms and conditions of the Asset Purchase Agreement, the Asset Purchase Agreement shall control.

5. This Patent Assignment Agreement shall be governed by and construed and interpreted in accordance with the laws of the State of California without regard to its conflict of laws provisions. This Patent Assignment Agreement shall bind Seller and its successors, assigns and representatives and inure to the benefit of Buyer and its successors, assigns and representatives. This Patent Assignment Agreement may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.
