ASSIGNMENT

Whereas I, Anthony Newsome, with residence and citizenship as indicated below, have, together with Jeannie Stubblefield, Zachary E. Taylor, Scott Handy, Mary Farone, Erin McClelland, Caleb Sutton, Anthony Farone, Hyo Park, and Danielle Araujo, have made an invention as described in the following patent application filed under the Patent Cooperation Treaty:

THERAPEUTIC AURONES

Filed: April 11, 2017

PCT Application Serial No.: PCT/US2017/027038

Now, therefore, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I have individually and jointly agreed to assign and transfer and do hereby assign and transfer unto MIDDLE TENNESSEE STATE UNIVERSITY ("Assignee"), a constituent member of the Tennessee Board of Regents System, having its principal offices at 1301 E. Main St., Murfreesboro, TN, 37132, United States of America, its successors and assigns, my entire right, title, and interest in and to said invention and application, and in and to any division or continuation (in whole or in part) of said application, and in and to any and all improvements in said invention made by me or made jointly with others (provided any such improvement is made during, or within one year after the termination of, the employment by the Assignee of whichever of us, solely or jointly with one or more others, has made the same), and in and to any and all Letters Patent, reexaminations, reissues, or extensions thereof, of the United States of America and countries foreign thereto (including the right to apply for Letters Patent, Utility Models, or Inventors' Certificates in foreign countries in its own name and to claim any priority rights for such foreign applications to which such applications are entitled under international conventions, treaties, or otherwise), which have been or may be granted thereon or on any divisional, continuation (in whole or in part), renewal, reexamination, reissue, or other or further application based in whole or in part upon said invention or improvements thereon, to be held and enjoyed as fully and exclusively as they would have been by me had this assignment and transfer not been made;

I do further agree for myself and for my heirs, executors, and administrators, to execute and deliver without further consideration any further applications, assignments, and documents, and to perform such other acts as I lawfully may, that may be deemed necessary by the Assignee, its successors, assigns, and nominees, fully to secure its right, title, and interest as aforesaid and to obtain or maintain Letters Patent, Utility Models, or Inventors' Certificates in any and all countries;

And I do hereby authorize and request the Commissioner of Patents to issue any and all Letters Patent that may be granted upon any of said applications, to MIDDLE TENNESSEE STATE UNIVERSITY as the assignee of the entire right, title, and interest therein.

Further, I covenant and agree with the Assignee, and its successors and assigns, that I have not assigned, granted, mortgaged, licensed, or executed any other agreement affecting the rights and property herein conveyed to others and that I possess the full right to convey these rights and property as herein expressed.

Assignment to Middle Tennessee State University
Application No. PCT/US2017/027038
Filing Date: April 11, 2017
For: THERAPEUTIC AURONES
