ASSIGNMENT AGREEMENT

THIS ASSIGNMENT (hereinafter referred to as “**Assignment**”) is made by and between (i) **Mariano E. TAN**, having an address at 3 Serra Bellissima Ct., Henderson, NV 89011, **Jacob R. SCHMITZ**, having an address at 3149 Coral Ln., Glenview, IL 60026, **Brian D. ENG**, having an address at 4730 N. Hermitage 2C, Chicago, IL 60640, and **Navneet R. GARG**, having an address at 4851 N. Damen Ave., Apt. 206, Chicago, IL 60625 (hereinafter referred to as “**Assignors**,” which includes all successors and legal representatives); and (ii) **Prosodica, LLC**, having an address at 570 Lake Cook Rd., Suite 400, Deerfield, IL 60015 (hereinafter referred to as “**Assignee**,” which includes all successors, legal representatives and assigns).

WHEREAS, Assignors have invented certain new and useful improvements in SYSTEM AND METHOD FOR IMPROVING CONTACT CENTER OPERATIONS BY OPTIMIZING USER CONNECTIONS described in U.S. Patent Application, No. 62/571,370, filed on October 12, 2017 (Attorney Docket No. 11404/0062480US0) (hereinafter referred to as “**Application**”); and

WHEREAS, Assignee is desirous of acquiring the entire right, title and interest worldwide in and to the Application, and inventions and improvements described therein, and in and to any patents to be obtained therefor, thereon, and therefrom.

NOW, THEREFORE, for sufficient, good and valuable consideration, the receipt of which is hereby acknowledged, Assignors have sold, assigned, transferred and set over, and by these presents do sell, assign, transfer and set over unto Assignee, and Assignee hereby accepts, all right, title and interest throughout the world in and to the Application, any inventions and improvements claimed or disclosed therein, and any and all letters patent, certificates of invention, design registrations and utility models which may be granted therefor in the United States, its territorial possessions and all foreign countries, and in and to any and all reissues, reexaminations, divisions, continuations, continuations-in-part, substitutes, extensions thereof, and all other applications relating

thereto which shall be filed by the Assignee or its assignees in the United States, its territorial possessions and all foreign countries, for Assignee's own use and enjoyment, as fully and entirely as the same would have been held and enjoyed by Assignors if this Assignment had not been made, together with (A) the right, if any, to register or apply in all countries and regions in the Assignee's name for patents, utility models, design registrations and like rights of exclusion and for inventors' certificates for said inventions and improvements; (B) the right to prosecute, maintain and defend the Application (and any patents granted thereon or therefrom) before any public or private agency, office or registrar including by filing reissues, reexaminations, divisions, continuations, continuations-in-part, substitutes, extensions and all other applications relating to the Assigned Patents; (C) the right, if any, to claim priority based on the filing date of the Application under the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, the Paris Convention, and all other treaties of like purposes; and (D) the right to sue and recover damages or other compensation for past, present or future infringements thereof, the right to sue and obtain equitable relief, including injunctive relief, in respect of such infringements, and the right to fully and entirely stand in the place of the Assignors in all matters related thereto.

AND, at Assignee's cost, Assignors shall use reasonable efforts to take actions and execute and deliver documents that Assignee may reasonably request to effect the terms of this Assignment and to perfect Assignee's title in and to the Application assigned to it hereunder, including, without limitation, entering into individual patent assignment agreements (in one or more languages) for the purposes of evidencing and recording Assignee's rights in the Application.

AND, Assignee shall be solely responsible for all actions and all costs whatsoever, including but not limited to taxes, attorneys' fees and patent office fees in any jurisdiction, associated with the perfection of Assignee's right, title, and interest in and to the Application and recordation and/or registration of this Assignment or any other document evidencing the assignment to Assignee of the Application. The Assignors

hereby authorize the Commissioner/Director of Patents and Trademarks in the United States Patent and Trademark Office, and the corresponding entities or agencies in any applicable foreign countries or multinational authorities, to record Assignee as the assignee and owner of the Application and to deliver to Assignee all official documents and communications as may be warranted by this Assignment.

AND, for the same consideration, Assignors hereby represent and warrant to Assignee that, at the time of execution and delivery of these presents, except for any right, title and/or interest that have arisen to Assignee under law or that have already been transferred to Assignee, Assignors are the lawful owners of rights, titles and interests in and to the Application, including the inventions and improvements described therein, and that the same are unencumbered and that Assignors have good and full right and lawful authority to sell and convey the same in the manner herein set forth.

AND, Assignors hereby grant the following individuals the power to insert on this Assignment the application serial number, and any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document:
