ASSIGNMENT

WHEREAS, WE, Timothy C. Greiner, Kai Fu, Wing C. Chan, and Dennis Weisenburger, have co-invented a certain invention entitled:

METHOD FOR SUBTYPING LYMPHOMA TYPES BY MEANS OF EXPRESSION PROFILING

for which invention we have executed an application for a U.S. patent which was filed on May 6, 2016, under Application No. 15/035,101, and

WHEREAS, we are some of the inventors named in the patent application; and

WHEREAS, the Board of Regents of the University of Nebraska, of Varner Hall, 3835 Holdege Street, Lincoln, Nebraska 68583-0745 (hereinafter referred to as Assignee), is desirous of acquiring our entire domestic and foreign right, title, and interest in and under the invention described in the patent application.

NOW, THEREFORE, for good and valuable considerations, the receipt and sufficiency of which are hereby acknowledged, we assign and transfer to the Assignee and the Assignee's legal representatives, successors and assigns our full and exclusive rights in and to the invention in the U.S. and every foreign country and our entire right, title, and interest in and to the patent application and other such applications (e.g., provisional applications, non-provisional applications, continuations, continuations-in-part, divisionals, reissues, reexaminations, National phase applications, including petty patent applications, and utility model applications) that may be filed in the United States and every foreign country on the invention, and the patents, extensions, or derivations thereof, both foreign and domestic, that may issue thereon, and we do hereby authorize and request the Commissioner of Patents to issue U.S. patents to the above-mentioned Assignee agreeably with the terms of this assignment document.

WE HEREBY AUTHORIZE the Assignee to insert in this assignment document the filing date and application number of the application if the date and number are unavailable at the time this document is executed.

UPON SAID CONSIDERATION, we convey to the Assignee the right to make application in its own behalf for protection of the invention in the U.S. and countries foreign to the U.S. and to claim under the Patent Cooperation Treaty, the International Convention and/or other international arrangement for any such application the date of the U.S. application (or any other application on the invention) to gain priority with respect to other applications.

WE DO HEREBY COVENANT and agree with the Assignee that we will not execute any writing or do any act whatsoever conflicting with the terms of this assignment document set forth herein, and that we will at any time upon request, without further or additional consideration, but
