ASSIGNMENT OF INVENTIONS AND PATENT RIGHTS

Whereas, I, Adam Krefting (referred to herein as "assignor") am the inventor of a certain invention entitled:

External Damping Adjustment Apparatus for Suspension System

Whereas, the specification for said invention forms part of a United States provisional patent application filed in the United States Patent and Trademark Office on October 18, 2017 under application number 62/573,722;

Whereas, the specification for said the invention described in the referenced United States provisional application and certain improvements to the invention form a part of a non-provisional patent application to be filed in the United States Patent and Trademark Office;

Whereas, Kreft, LLC, an Oregon limited liability company (referred to herein as "assignee") and whose business address is 63003 Plateau Drive, Suite 1, Bend, Oregon 97701, USA is the assignee of the referenced provisional patent application and desires and is entitled to acquire my entire right, title and interest in the same and the inventions described in the non-provisional patent application;

Now, Therefore, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, I the assignor hereby sell, assign and transfer to the assignee, the full and exclusive right, title and interest in and to the foregoing inventions, provisional patent application improvements thereto, and patent rights therein throughout the world, including foreign patent rights, the right to file and prosecute additional provisional and related US non-provisional application(s), international applications under the Patent Cooperation Treaty, and the right to file and prosecute applications under the European Patent Convention; said inventions, applications and letters patent in this or any foreign country, and all divisions, continuations, reissues, reexaminations and extensions thereof, to be held and enjoyed by assignee for its own use and benefit, and for its successors and assigns to the full end of the term for which letters patent may be granted in this or any foreign country, as fully and entirely as the same would have been held by me had this assignment and sale not been made, and covenant that I have full right so to do, and agree that I will communicate to assignee, or its successors and assigns, any facts known to me respecting said inventions, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuing and reissue applications, make all rightful oaths, and do everything possible to aid assignee, its successors and assigns to obtain and enforce proper patent protection for said invention in this or any foreign country.

Adam Krefting
