ASSIGNMENT

WHEREAS, I, ANTHONY O. AWOFOESO ("Assignor"), have invented certain new and useful improvements in "METHODS FOR MAKING IMPROVED CELLULOSIC PRODUCTS USING NOVEL PRESS FELTS AND PRODUCTS MADE THEREFROM", for which an application for United States Letters Patent was executed concurrently herewith or was filed on September 12, 2018, and accorded Application No. 16/129,371 and/or the corresponding PCT International Patent Application filed on October 18, 2018, and accorded Application No. PCT/IB2018/058101 (each or together, the "Application"); and

WHEREAS, GPCP IP HOLDINGS LLC, a limited liability company of the State of Delaware having a place of business at 133 Peachtree Street, N.E., Atlanta, Georgia 30303 ("Assignee"), desires acquiring or has acquired Assignor's interest in the above-identified invention, the Application and any related patent application and patent;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, Assignor by these presents does hereby sell, assign, and transfer, or by virtue of employment agreements or other applicable agreements has sold, assigned, and transferred, unto Assignee, its successors, legal representatives, and assigns, Assignor's entire right, title, and interest in and to the above-identified invention, the Application, the entire right, title, and interest in and to provisional application number 62/577,985, filed October 27, 2017, any U.S. or foreign patent applications related to the above-identified invention, any U.S. or foreign patent applications claiming priority to the Application, or any of the other above-referenced patent applications, including any division, continuation, continuation-in-part, reexamination, reissue, extension, substitution, or renewal of the Application or any of the other above-referenced patent applications, any right to claim priority arising from or required for the Application or any of the other above-referenced patent applications under any applicable convention, treaty, statute, or regulation, any other right, privilege, or form of protection related to the above-identified invention or the Application or any of the other above-referenced patent applications, and any U.S. or foreign patent granted from the Application or any of the other above-referenced patent applications, to the full end of the term of the patent, to be held and enjoyed by Assignee, its successors, legal representatives, and assigns as fully and entirely as it would have been held and enjoyed by Assignor;

AND, Assignor hereby authorizes Assignee to file the Application or any of the other above-referenced patent applications in the name of Assignee or its designee, and Assignor authorizes and requests the patent office of any country to issue any patent granted from the Application or any of the other above-referenced patent applications in the name of Assignee or its designee, and Assignor further authorizes Assignee to insert the serial number and filing date of the Application into this Assignment if unknown upon execution of this Assignment;

AND, Assignor hereby warrants and covenants that Assignor has not and will not execute any assignment or other instrument in conflict with this Assignment;

AND, Assignor hereby covenants and agrees to perform any reasonable act that may be necessary or desirable to aid Assignee, its successors, legal representatives, and assigns, to obtain, maintain, and enforce protection in the U.S. and foreign countries for the above-referenced invention, patent applications, and patents, including signing lawful papers, executing patent applications, making assignments, rightful oaths, affidavits and declarations, and testifying in judicial or administrative proceedings.
