**ASSIGNMENT**

Gregory S. Taylor, residing at 1521 Reycraft Drive, Kalamazoo, Michigan 49001, and Robert Christopher Rusin, residing at 6854 Wild Plum Ridge, Richland, Michigan 49083 (collectively hereinafter "Assignor") have invented certain new and useful improvements in a THERMAL SYSTEM WITH MEDICATION INTERACTION, for which a non-provisional patent application was executed on even date herewith, and which claims priority to a U.S. provisional patent application filed on October 27, 2017 and assigned application serial number 62/577,772.

Stryker Corporation, a corporation of the State of Michigan, having a place of business at 2825 Airview Boulevard, Kalamazoo, Michigan 49002 (hereinafter referred to as Assignee) desires to acquire the entire right, title, and interest in and to the invention and all patents that may be granted therefor anywhere in the world.

For good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, Assignor sells, assigns, and transfers unto Assignee the entire right, title, and interest in and to (a) the invention in the United States and in all foreign countries, (b) the application, (c) all provisional applications from which the application claims priority, (d) all nonprovisionals, divisions, continuations, continuations-in-part, reissues, reexaminations, substitutions, renewals, and extensions claiming priority directly or indirectly from the application including the right to claim for any such application the benefits of the International Convention; and (e) all patents that may be granted on any of the foregoing in the United States and in all foreign countries.

Assignor authorizes and requests the patent office officials in the United States and in all foreign countries to issue all of the patents, when granted, to Assignee as the owner of the entire right, title, and interest in and to the same.

Assignor agrees to communicate to Assignee or its representatives all facts known to Assignor respecting the invention; to testify in all legal proceedings; to sign all documents; to execute all nonprovisional, divisional, continuation, continuation-in-part, reissue, reexamination, substitution, renewal, and extension applications; to execute all necessary assignment documents to cause all of the patents to be issued to Assignee, to make all rightful oaths, and generally to do everything possible to aid Assignee, its successors and assigns, to obtain and enforce proper protection for the invention in the United States and in all foreign countries.
