## ASSIGNMENT OF INVENTION

WHEREAS, We, Mokhtar Ziarati, North Hollywood, California, and Parisa Ziarati, Granada Hills, California, have invented certain new and useful improvements in: ALERT SYSTEM FOR MRI TECHNOLOGIST AND CAREGIVER (U. S. Non-Provisional Application No. 15687,277, filed August 25, 2017), in the US Patent and Trademark Office), and WHEREAS, Resonance Technology, Inc. (hereinafter referred to as "ASSIGNEE") having a place of business at: 18121 Parthenia Street, Northridge, California 91325-3301 is desirous of acquiring the entire right, title and interest in and to said invention and in and to any Letters Patent that may be granted therefore in the United States and its territorial possessions in any and all foreign countries;

NOW, THEREFORE, for good and valuable consideration, the receipt whereof is hereby acknowledged, We do sell, assign and transfer unto said ASSIGNEE, the full and exclusive right to the said invention in the United States and its territorial possessions and in all foreign countries (including the right to claim priority under the terms of the International Convention and other relevant International Treaties and Arrangements from the aforesaid application(s)) and the entire right, title and interest in and to any and all Letters Patent which may be granted therefor in the United States and its territorial possessions and in any and all foreign countries and in and to any and all non-provisionals, divisions, reissues, continuations, continuation-in-parts, substitutions and renewals thereof.

We hereby authorize and request the patent office officials in the United States and its territorial possessions and any and all foreign countries to issue any and all of said Letters Patent, when granted, to said ASSIGNEE as the assignee of my entire right, title and interest in and to the same, for the sole use and benefit of said ASSIGNEE, its successors and assigns, to the full end of the term for which said Letters Patent may be granted, as fully and entirely as the same would have been held by us had this Assignment and sale not been made.

Further, We agree that We will communicate to said ASSIGNEE or its representatives any facts known to us respecting said invention, and testify in any legal proceeding, sign all lawful papers, execute all divisional, continuation, substitute, renewal and reissue applications, execute all necessary assignment papers to cause any and all of said Letters Patent to be issued to said ASSIGNEE, make all rightful oaths, and, generally do everything possible to aid said ASSIGNEE, its successors and assigns, to obtain and enforce proper protection for said invention in the United States and its territorial possessions and in any and all foreign countries.
