ASSIGNMENT

WHEREAS, Brandon Eshelman, a citizen of the United States of America and a resident of Salt Lake City, Utah; Cameron Bigler, a citizen of the United States of America and a resident of Lehi, Utah; and Adam Boushley, a citizen of the United States of America and a resident of Midvale, Utah; have invented certain new and ornamental inventions as described in an application for a United States Design Patent entitled "**Power Adapter With Covered Receptacles**" (the "Inventions and Designs"), a copy of which is attached hereto (the "Application");

WHEREAS, 360 Electrical, L.L.C., a Utah limited liability company having its principal place of business at 1935 East Vine Street, Suite 360, Salt Lake City, Utah 84121 (the "Assignee"), is desirous of acquiring, and Assignors are desirous of assigning to the Assignee, all right, title and interest in and to said Inventions and Designs, and patents and patent applications on said Inventions and Designs;

NOW, THEREFORE, Assignors, for good and valuable consideration, the receipt and sufficiency of which they do hereby acknowledge, do hereby SELL, ASSIGN and CONVEY unto Assignee all right, title and interest throughout the world in and to said Inventions and Designs, this assignment including, but not being limited to:

1. Said Inventions and Designs, said Application, and any other patent applications, patents, or similar grants or protection on said Inventions and Designs made by Assignors or any legal representatives, whether in the United States of America or any other country or place anywhere in the world;
2. All substitutions for and divisions, continuations, continuations-in-part, renewals, reissues, extension, and the like of said Application, and of any other patent applications, patents, or similar grants or protection on said Inventions and Designs, including without limitation, those obtained or permissible under past, present and future laws or statutes;
3. All rights of action on account of past, present and future misappropriation or unauthorized use of said Inventions and Designs in any form, including but not limited to any infringement of any patent that may issue from the Application or from any other patent applications directed to said Inventions and Designs, any other patents or similar grants or protection on said Inventions and Designs, and any trade secret misappropriation of said Inventions and Designs;
4. The right to Assignee to file in its name applications for patents and similar grants or protection for said Inventions and Designs in the United States and in any country or countries foreign to the United States; and
5. All international rights or priority associated with said Inventions and Designs, said Application, and any other applications for patents, patents and similar grants or protection on said Inventions and Designs.

Assignors covenant that Assignors, their heirs, legal representatives, assigns, administrators, and executors, will execute all papers and perform such other acts, with expenses if any to be paid by Assignee, as may be reasonably necessary to give Assignee, its successors and assigns, the full benefit of this Assignment. This Assignment shall be binding upon and shall inure to the benefit of the successors, assigns and legal representatives of the parties hereto.
