RECORDABLE CONFIRMATORY ASSIGNMENT

THIS ASSIGNMENT ("Assignment") is made this 14th day of May, 2014, by William A. Cook Australia Pty. Ltd., an Australian corporation (referred to as "Assignor").

WHEREAS, Assignor entered into a Technical Services Agreement (the "Services Agreement"), dated January 1, 2011, and an Asset Purchase Agreement (the "Asset Purchase Agreement"), dated January 10, 2013 between Assignor and Cook Medical Technologies LLC, an Indiana limited liability company having an office at 750 N. Daniels Way, Bloomington, IN 47404, U.S.A. ("Assignee"), pursuant to which Assignor previously assigned to Assignee all of Assignor's right, title, and interest in the U.S. patent application and all inventions described therein related to "PROSTHESIS HAVING PIVOTING FENESTRATION" and being described in U.S. Provisional Patent Application No. 61/375,815, filed on August 21, 2010; and any and all applications claiming the benefit thereof including the right of priority, and described in U.S. Nonprovisional Application No. 13/213,349, filed on August 19, 2011 (collectively, the "Applications").

WHEREAS, pursuant to Section 5.3 of the Services Agreement and Asset Purchase Agreement, Assignor agreed to execute this Assignment to confirm the assignment on January 1, 2011 and January 10, 2013, for the purpose of recording Assignee's rights with the U.S. Patent and Trademark Office.

WHEREAS, to the extent that any of Assignor's right, title, or interest in the Applications was not transferred pursuant to the Services Agreement and Asset Purchase Agreement, Assignor desires to assign to Assignee all of Assignor's right, title, and interest in, to, or under the Applications, including all inventions described therein, and Assignee desires to accept such an assignment.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignor hereby assigns, transfers, contributes, and sets over, and does hereby confirm the previous Services Agreement and Asset Purchase Agreement and any contribution, assignment, and transfer, unto the said Assignee, its successors, legal representatives and assigns, all of Assignor's right, title and interest in, to and under the Applications, including all inventions described therein and all divisions, renewals and continuations thereof, and all Letters Patent of the United States which may be granted thereon and all reissues, re-examinations and extensions thereof (including, without limitation, all proceeds thereof and the rights to sue for past, present and future infringements), and all applications for Letters Patent which may hereafter be filed for said Applications (including the right to claim priority from said Applications, including all inventions described therein) in any country or countries foreign to the United States, and all letters Patent which may be granted for said Applications in any country or countries foreign to the United States hereby authorized.
