## **PATENT RIGHTS ASSIGNMENT AGREEMENT**

This PATENT RIGHTS ASSIGNMENT AGREEMENT (this "Agreement") is entered into as of October, 29 2018 (the "Effective Date"), by and between Wycoff Financial, LLC, a Colorado limited liability company, having its principal place of business at 3018 S. Lakeridge Trail, Boulder, CO 80302 ("Assignor"), and Ascent IP Holdings, LLC a Colorado limited liability company, with its principal place of business at 3018 S. Lakeridge Trail, Boulder, CO 80302 ("Assignee") (each of Assignor and Assignee a "Party", collectively, the "Parties").

WHEREAS, Assignor owns the Assigned Patents (as defined below), and Assignor has the right to assign all right, title, and interest in and to the Assigned Patents to Assignee;

WHEREAS, Assignee desires to acquire the entire and exclusive right, title, and interest in and to the Assigned Patents and the underlying inventions described therein, in the United States and throughout the world; and

WHEREAS, Assignor is willing to assign to Assignee all right, title, and interest in and to the Assigned Patents, and the underlying inventions described therein, in the United States and throughout the world.

Now therefore, in consideration of the premises and covenants herein contained, Assignor and Assignee agree as follows:

### **1. Assignment**

1.1 Assignor hereby assigns, transfers and conveys to Assignee, and Assignee hereby accepts, all right, title, and interest throughout the world in and to: (a) the issued patents and pending patent applications identified on Schedule 1 to Exhibit A attached hereto (the "Assigned Patents"), (b) all issued patents, rights to inventions and pending and future applications for patents under United States law or regulation or of any foreign country with respect to patentable inventions from which such Assigned Patents arise, including, without limitation, utility patents, utility models, design patents, invention certificates, continuations, divisionals, continuations-in-part, reexaminations, reissues, extensions and renewals, in all countries of the world; (c) all rights to inventions and pending and future applications for patents under United States law or regulation or any foreign country with respect to patentable inventions in improvements based upon, derived from or related to subcategories (a) and (b); (d) all causes of action (whether known or unknown or whether currently pending, filed or otherwise) and all other enforcement rights under or on account of, subcategories (a)(b) and (c), including, without limitation, all causes of action and other enforcement rights for damages, injunctive relief, and any other remedies of any kind for past, current, and future infringement; (e) all rights to collect royalties or other payments under or on account of the Assigned Patents and any of the foregoing subcategories (b) and (c), collectively, the "Assigned Patent Rights"), set forth in summary by the Assignment attached as Exhibit A hereto (the "Assignment").

1.2 Assignee shall have the right to prepare and file applications for patents or other forms of protection for the Assigned Patent Rights (including, without limitation, the underlying inventions described therein) throughout the world, and Assignee shall have the right to prosecute such applications, as well as to claim and receive the benefit of the right of priority provided by the International Convention for the Protection of Industrial Property, as amended, or by any

convention which may henceforth be substituted for it, including the right to invoke and claim such right of priority without further written or oral authorization.

1.3 Assignor shall, without charge to Assignee but at Assignor's expense, both before and after payment of the consideration specified in Section 2.1 below, execute, verify, acknowledge, have authenticated and deliver all such further documents, including instruments of transfer and assignment papers, that Assignee may reasonably require to implement the assignments in Section 1.1 and 1.2 above or the Assignment as needed to vest title to the Assigned Patent Rights in Assignee.

1.4 In the event that Assignee is unable for any reason whatsoever to secure Assignor's signature to any documents it is entitled to under Section 1.3 above, Assignor hereby irrevocably designates and appoints Assignee and its duly authorized officers and agents, as its agents and attorneys-in-fact to act for and on its behalf and instead of it, to execute and file any such document and to do all other lawfully permitted acts to further the purposes of Section 1.3 above with the same legal force and effect as if executed by Assignor. Assignor further agrees that in the event Assignee subsequently assigns any of the Assigned Patent Rights, Assignee's successors and assigns with respect to such Assigned Patents or Assigned Patent Rights ("Assignee's Assignees"), including their duly authorized officers and agents, shall be Assignor's agents and attorneys-in-fact to act for and on its behalf and instead of it, to execute and file any such document and to do all other lawfully permitted acts to further the purposes of Section 1.3 above with the same legal force and effect as if executed by Assignor.

1.5 Assignor agrees to cooperate with Assignee at Assignee's expense (provided such expenses are reasonable and preapproved in writing by Assignee, such approval not to be unreasonably, withheld, conditioned or delayed) after the Effective Date to provide all files and documents in its possession, including without limitation patent prosecution files, and to perform such other acts and provide such assistance as Assignee lawfully and reasonably may request to obtain, maintain, defend, or enforce letters patent for the Assigned Patents or inventions disclosed therein in any and all countries. Further, in the event Assignee subsequently assigns any of the Assigned Patent Rights to any Assignee's Assignees, Assignor agrees to cooperate with such Assignee's Assignee at the Assignee's expense after the date of such assignment to perform such other acts and provide such assistance as the Assignee's Assignee lawfully and reasonably may request to obtain, maintain, defend, or enforce letters patent for the Assigned Patents or inventions disclosed therein in any and all countries.

## 2. Payment and Communication

2.1 As consideration for the assignment of the Assigned Patent Rights, Assignee shall deliver to Assignor good and valuable consideration on the Effective Date. Simultaneously with Assignee's delivery of consideration to Assignor, Assignor shall execute and deliver to Assignee the Assignment, which Assignee may record, at its election.

2.2 Assignor shall pay all taxes (including, without limitation, sales and value added taxes) imposed on Assignor by the national government, and any state, local or other political subdivision thereof, of any country in which Assignor is subject to taxation, as the result of Assignee's furnishing consideration hereunder.

2.3 Notices and other communications relevant to this Agreement or to any of the Assigned Patent Rights shall be sent by email or by registered or certified mail to the following address, or to such other address as may be given by notice hereafter, and shall be effective

upon sending, if sent by email, as proven by a delivery confirmation page, or upon receipt if sent by registered or certified mail, as proven by a post office delivery receipt:

For Assignor:

c/o Merrie Pisano Wycoff  
3018 S. Lakeridge Trail  
Boulder, CO 80302

For Assignee:

c/o Merrie Pisano Wycoff  
3018 S. Lakeridge Trail  
Boulder, CO 80302

### 3. Representations, Warranties and Covenants

3.1 Corporate Authority. Assignor represents and warrants to Assignee and its assignees that:

(a) it has all requisite legal right, power, and authority to execute, deliver, and perform this Agreement; and

(b) such Agreement constitutes its valid and legally binding obligation, enforceable in accordance with its terms.

3.2 Other Matters. Assignor represents and warrants to Assignee and its assignees that:

(a) Assignor has good and marketable title to the Assigned Patent Rights (including, without limitation, all right, title, and interest in the Assigned Patent Rights and the right to sue for past, present and future infringements thereof);

(b) Assignor has the full right and power to assign all Assigned Patent Rights and the underlying inventions as set forth above;

(c) none of the Assigned Patent Rights is subject to any licenses, covenants not to sue, liens, security interests, or other encumbrances;

(d) as of the Effective Date, Assignor is not aware of, with respect to any of the Assigned Patents, any prior art that must be disclosed to any governmental office in which a given patent application has been filed (based on relevant disclosure obligations); (ii) to the extent Assignor becomes aware after the Effective Date of any prior art that must be disclosed to any governmental office in which a given patent application has been or may be filed, Assignor will advise Assignee in writing of such prior art (based on relevant disclosure obligations) and provide Assignee with copies of such prior art; and (iii) Assignor has searched for and delivered on or before the Effective Date copies of all documents in Assignor's or its counsel's possession, required by or reasonably requested by Assignee relating to ownership, filing, prosecution, infringement, validity, or enforceability of the Assigned Patent Rights.

(e) Assignor has not entered, and shall not enter, into any agreement that would materially impair or conflict with its obligations hereunder;

(f) there has been no previous sale, transfer, assignment or other grant of rights under the Assigned Patent Rights or any other agreement by Assignor that affects, in any manner, title to, or Assignee's enjoyment of, the Assigned Patent Rights or the underlying inventions, including, but not limited to, an assignment of full or partial rights in or to one or more of the Assigned Patent Rights, a license to one or more of the Assigned Patent Rights, or a right or option to obtain a license;

(g) Assignor represents and warrants that performance of this Agreement does not conflict with or result in a breach of any agreement to which it is bound;

(h) none of the Assigned Patent Rights has been asserted against any third party, in a licensing or other context, in a manner in which the third party (i) has been accused of infringing one or more of the Assigned Patents or (ii) has standing to bring a declaratory judgment action; and (iii) none of the Assigned Patent Rights have been, or are, the subject of any threatened, pending or past litigation, reexamination, reissue or interference proceeding, or other inter partes legal proceeding before any tribunal of competent jurisdiction;

(i) there is no pending or, to the knowledge of Assignor, threatened claim that the practice of the inventions described in the Assigned Patent Rights infringes any patents or patent applications of any third party and, to the knowledge of Assignor, there is no basis for any such claim; and

3.3 Assignee. Assignee represents and warrants to Assignor that:

(a) it has all requisite legal right, power, and authority to execute, deliver, and perform this Agreement; and

(b) such Agreement constitutes its valid and legally binding obligation, enforceable in accordance with its terms, except (i) as limited by applicable bankruptcy, insolvency, reorganization, moratorium, and other laws of general application affecting enforcement of creditors' rights generally, and (ii) as limited by laws relating to the availability of specific performance, injunctive relief, or other equitable remedies.

4. Disclaimers and Limitations

4.1 NEITHER PARTY MAKES ANY REPRESENTATION OR WARRANTY EXCEPT AS EXPRESSLY SET FORTH IN SECTION 3 ABOVE, AND EACH PARTY DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. EXCEPT AS EXPRESSLY SET FORTH IN SECTION 3, NEITHER PARTY GIVES THE OTHER PARTY ANY ASSURANCE:

REGARDING THE PATENTABILITY OF ANY INVENTION THAT IS OR MIGHT BE CLAIMED IN, OR THE VALIDITY OR ENFORCEABILITY, OF ANY OF THE ASSIGNED PATENTS OR PATENTS OR APPLICATIONS DERIVED FROM RIGHTS ASSIGNED UNDER THIS AGREEMENT, OR THAT THE MANUFACTURE, USE, SALE, OFFERING FOR SALE, IMPORTATION, EXPORTATION, OR OTHER DISTRIBUTION OF ANY PRODUCT OR METHOD DISCLOSED OR CLAIMED IN ANY OF THE ASSIGNED PATENTS OR PATENTS OR APPLICATIONS DERIVED FROM RIGHTS ASSIGNED UNDER THIS AGREEMENT WILL OR

WILL NOT CONSTITUTE AN INFRINGEMENT OF SUCH RIGHTS OR ANY INTELLECTUAL PROPERTY RIGHTS OF ANY OTHER PERSONS OR ENTITIES, OR THAT THE MANUFACTURE, USE, SALE, OFFERING FOR SALE, IMPORTATION, EXPORTATION, OR OTHER DISTRIBUTION OF ANY PRODUCT OR METHOD BY ANY OTHER PERSON OR ENTITY SHALL INFRINGE THE CLAIMS OF ANY OF THE ASSIGNED PATENTS OR RIGHTS DERIVED FROM RIGHTS ASSIGNED UNDER THIS AGREEMENT.

4.2 EXCEPT IN THE EVENT OF ASSIGNOR'S INTENTIONAL MISREPRESENTATION, NEITHER PARTY WILL HAVE ANY OBLIGATION OR LIABILITY (WHETHER IN CONTRACT, WARRANTY, TORT (INCLUDING NEGLIGENCE), OR OTHERWISE, AND NOTWITHSTANDING ANY FAULT, NEGLIGENCE (WHETHER ACTIVE, PASSIVE, OR IMPUTED), REPRESENTATION, STRICT LIABILITY, OR PRODUCT LIABILITY), FOR ANY INCIDENTAL, INDIRECT OR CONSEQUENTIAL, MULTIPLIED, PUNITIVE, SPECIAL, OR EXEMPLARY DAMAGES, OR LOSS OF REVENUE, PROFIT, SAVINGS, OR BUSINESS ARISING FROM OR OTHERWISE RELATED TO THIS AGREEMENT, EVEN IF A PARTY OR ITS REPRESENTATIVES HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

## 5. Miscellaneous

5.1 As between Assignee and Assignor, Assignee, as the acquirer of all right, title, and interest in each of the Assigned Patents and related rights, has sole discretion whether or not to institute any action or suit against third parties for infringement (including, without limitation, past, present and future infringement) of, or any other inter partes proceeding (including, without limitation, reexaminations and interferences) related to, any of the Assigned Patents or patents derived from rights assigned under this Agreement or to defend any action or suit, or other inter partes proceeding, brought by a third party that challenges or concerns the patentability, validity, enforceability, priority, title, scope, or applicability of any of the Assigned Patents or patents or applications derived from rights assigned under this Agreement. Assignor's sole responsibility or duty in connection with such an action or suit shall be to cooperate with Assignee as stated in Sections 1.3 and 1.5 above. If any such action or suit is brought by or against Assignee after the Effective Date involving or relating to any or all of the Assigned Patent Rights, as between Assignee and Assignor:

5.2 Assignee, and not Assignor, shall be responsible for defending against any claim, counterclaim, or contention by or on behalf of an opposing litigant that Assignee lacks standing or that any or all of the Assigned Patent Rights are invalid, unenforceable, inapplicable, or lack priority, at Assignee's own expense, regardless of whether or not any opponent includes contentions of fact or law that, if true or correct, would be inconsistent with any of Assignor's representations and warranties in Section 3 above; and Assignee, and not Assignor, shall retain all proceeds derived from or on account of the action or suit, or other proceeding, including any money or other benefits received through any judgment or settlement.

5.3 This Agreement shall not be binding upon the Parties until it has been signed herein below and delivered by or on behalf of each Party. Assignee may assign this Agreement in connection with the assignment of the Assigned Patents and Assigned Patent Rights. This Agreement shall be binding on, and shall inure to the benefit of, the Parties hereto and their respective successors and assigns. No amendment or modification hereof shall be valid or binding upon the Parties unless made in writing and signed as aforesaid.

5.4 If any section of this Agreement is found by competent authority to be invalid, illegal, or unenforceable in any respect for any reason, the validity, legality, and enforceability of

any such section in every other respect and the remainder of this Agreement shall continue in effect so long as the Agreement still expresses the intent of the Parties.

5.5 This Agreement, including its formation, shall be governed by and construed, and the legal relations between the Parties hereto shall be determined, in accordance with the law of the State of Colorado, United States of America, as such law applies to contracts signed and fully performed in such State, without regard to the principles of conflicts of law thereof. As part of the consideration received hereunder, each of the Parties hereby consents to the jurisdiction of any Colorado State or Federal court sitting in Boulder County over any suit, action or proceeding arising out of or relating to this Agreement.

5.6 The headings of sections are inserted for convenience of reference only and are not intended to be part of or to affect the meaning or interpretation of this Agreement.

5.7 Neither Party shall disclose the terms of this Agreement to any third party, without the prior written consent of the other Party. This obligation is subject to the following exceptions: (a) disclosure is permissible if required by government or court order, provided that the disclosing Party first gives the other Party prior written notice in order to enable that Party to seek a protective order (or other equivalent protection), and such permissible disclosure is limited to the terms legally required to be disclosed; (b) disclosure is permissible if otherwise required by law or any applicable securities exchange rules or regulations, and such permissible disclosure is limited to the terms legally required to be disclosed; (c) each Party may disclose this Agreement or its contents to the extent reasonably necessary, on a confidential basis, to its accountants, attorneys, and financial advisors; (d) Assignee may disclose this Agreement or its contents to any potential licensees or assignees of the Assigned Patents and Assigned Patent Rights, provided that all such potential licensees or assignees agree to the same terms of confidentiality as set forth in this Section 5.6; (e) Assignee may disclose this Agreement or its contents in order to perfect Assignee's interest in the Assigned Patent Rights with any governmental patent office, or to enforce Assignee's right, title and interest in and to the Assigned Patent Rights; and (f) the Parties may disclose information related to the tax treatment or tax structure of the transaction to the extent required by the relevant tax authorities.

5.8 This Agreement, including the exhibits and schedules attached hereto, embodies the entire understanding of and agreement between the Parties with respect to the Assigned Patent Rights and merges and supersedes all prior agreements, understandings, negotiations, and discussions between the Parties. Neither Party shall be bound by any condition, definition, warranty, understanding, or representation with respect to the subject matter hereof other than as expressly provided herein.

5.9 This Agreement may be executed in two or more counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument. The exchange of copies of this Agreement and of signature pages by facsimile transmission, by electronic mail in "portable document format" (".pdf") form, or by any other electronic means intended to preserve the original graphic and pictorial appearance of a document, will have the same effect as physical delivery of the paper document bearing an original signature.

5.10 Nothing contained herein, or done in pursuance of this Agreement, will constitute the Parties entering into a joint venture, partnership, or franchise or will constitute either Party hereto being the agent for the other Party for any purpose or in any sense whatsoever, except as otherwise explicitly set forth in Section 1.4.

5.11 Neither Party shall be considered the author of this Agreement for the purpose of interpreting any provision herein.

5.12 Each Party acknowledges that it has reviewed this Agreement, including Exhibit A attached hereto, and all related agreements, with its own legal, financial and tax advisors, and has not relied on the other Party or any of the other Party's advisors with respect to such matters.

5.13 Assignor acknowledges and agrees that damages alone would be insufficient to compensate Assignee for a breach by Assignor of this Agreement, and that irreparable harm would result from a breach of this Agreement. Assignor hereby consents to the entering of an order for injunctive relief to prevent a breach or further breach, and the entering of an order for specific performance to compel performance of any obligations under this Agreement.

\* \* \* \* \*

IN WITNESS WHEREOF, the Parties hereto have caused this Agreement to be executed as of the Effective Date. The individuals signing for the Parties represent and warrant that he or she has authority to sign for and enter into this Agreement on behalf of the respective Parties.

## EXHIBIT A

### Patent Assignment

This patent assignment (this "Assignment") is entered into as of October 29, 2018 by and between Wycoff Financial, LLC, a Colorado limited liability company, having its principal place of business at 3018 S. Lakeridge Trail, Boulder, CO 80302 ("Assignor"), and Ascent IP Holdings, LLC a Colorado limited liability company, with its principal place of business at 3018 S. Lakeridge Trail, Boulder, CO 80302 ("Assignee") (each of Assignor and Assignee a "Party", collectively, "Parties").

For good and valuable consideration, the receipt of which is hereby acknowledged, Assignor hereby:

1. irrevocably assigns to Assignee:

1.1 its entire right, title, and interest, everywhere in the world, to

(a) the issued patents and pending patent applications set forth on Schedule 1,

(b) any patent applications or patents that may claim priority of the items in (a) (including, but not limited to, continuations, divisions, substitutes, reissues, reexaminations, or extensions thereof, together with all priority rights and foreign counterpart applications under any existing or future international patent conventions, agreements, or treaties),

(c) any patent that may be granted on any patent application in (a) or (b), and

(d) any other rights in the inventions described in any of (a), (b) or (c) including rights to future patent applications in improvements thereof; (all of the foregoing in (1), collectively, the "Assigned Patents");

1.2 the right to sue third parties for infringement (including, but not limited to, past, present and future infringement, damages and injunctive relief) of any of the Assigned Patents based on activities occurring prior to the execution date hereof or hereafter; and

1.3 any current or future right to receive royalties based on any of the foregoing in (1) or (2);

2. agrees upon request of Assignee to, and if Assignor is unable or unwilling to do so authorizes Assignee to act in Assignor's name to: execute all oaths, assignments, powers, and any other papers necessary to perform Assignor's obligations hereunder and otherwise take any action, and fully cooperate with Assignee to perform Assignor's obligations hereunder, and at Assignee's expense testify in any proceeding, in each case, related to securing and enforcing Assignee's rights related to this Assignment.

3. Assignor acknowledges that pursuant to the sale, grant, transfer, and assignment to the Assignee of the entire right, title, and interest in and to the Assigned Patents, as provided in the above paragraphs, this Assignment shall be complete as to all rights owned. As such, Assignor consents to a waiver of any and all access rights to any applications for United States or foreign

patents relating to the Assigned Patents, and to any division, substitution, continuation, or continuation-in-part, of such Assigned Patents, all related access rights involving the Assigned Patents in any country such as utility-model registrations, inventor's certificates and the like, and all access rights, titles, and interests involving the Assigned Patents under any foreign government, to the extent permissible.

4. The terms and conditions of this Assignment will inure to the benefit of Assignee, its successors, assigns, and other legal representatives and will be binding upon Assignor, its successors, permitted, assigns, and other legal representatives. No assignment with out prior written consent of all Parties.
