ASSIGNMENT, WORLDWIDE
(with Intermediary)

For good and valuable consideration, having a value of at least \$1 US, the receipt and sufficiency of which is hereby acknowledged, each of the undersigned inventors (hereinafter: "Assignors") has sold, assigned, transferred, and/or does hereby sell, assign, and transfer to:

AKER SOLUTIONS AS
Oksenyveien 8, 1360 Fornebu, Norway

(hereinafter: "**Intermediary**"), who in turn, pursuant to the Intermediary Transfer recited in **Appendix A**, has sold, assigned, transferred and/or simultaneously sells, assigns, and transfers to:

AKER SOLUTIONS INC
3010 Briarpark, Houston, Texas 77042, United States

and/or its successors and assigns (hereinafter: "Assignee"), the entire right, title and interest, including all rights to claim priority to, for any and all countries, states, and regions, in and to any and all improvements which are disclosed in the document titled:

A METHOD FOR PROVIDING WELL SAFETY CONTROL IN A REMEDIAL ELECTRONIC SUBMERSIBLE PUMP (ESP) APPLICATION
and filed as:

United States Patent Application No. 15/631,026 filed on June 23, 2017

and in and to said application(s), and all utility, divisional, continuation, continuation-in-part, substitute, Paris Convention, renewal, reissue, re-examination, design, and all other patent applications, utility model applications, and design registrations which have been or shall be filed in all countries, states, and regions, on any of said improvements; and in and to all original and reissued patents and extensions thereto which have been or shall be issued in the United

States and all other countries, states, and regions in respect of said improvements, including but not limited to any Letters Patent; and in and to all rights of priority resulting from the filing of or claimed by said application(s), including but not limited to:

filed as

_____ Patent Application No. _____ filed on

Assignors hereby agree to permit Assignee's representative to add to this document any information that identifies any application or equivalent associated with the above-identified improvements, including but not limited to, any subsequent application claiming the benefit of a right to priority associated with any above-referenced application.

Assignors hereby agree that said Assignee may apply for and receive patents for said improvements in its own name; and that, when requested, without charge to, but at the expense of, said Assignee, its successors, assigns, nominees, and legal representatives, to carry out in good faith the intent and purpose of this Assignment.

Assignors hereby agree to execute all divisional, continuation, continuation-in-part, substitute, renewal, reissue, re-examination, Paris Convention, design, and all other patent applications on any and all said improvements; to execute all rightful oaths, declarations, assignments, powers of attorney and other papers; to communicate to said Assignee, its successors, assigns, nominees, and representatives, all facts known to the undersigned relating to said improvements and the history thereof, including but not limited to any information that may be material to the patentability of any improvement described in any of the above-identified applications; and to generally do everything possible which said Assignee, its successors, assigns or representatives shall consider desirable for aiding in securing and maintaining proper protection for said improvements and for vesting title to said

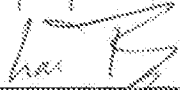

improvements and all applications for patents and all patents on said improvements, in said Assignee, its successors, assigns and legal representatives.

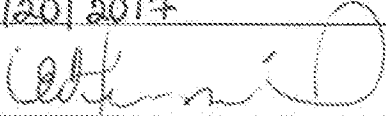

Assignors further authorize and empower Assignee, its successors, assigns, and legal representatives, to invoke, assert, and claim, for any and all applications for patent or other form of protection for the improvements, the benefit of the right of priority being provided by any national, regional, or international convention presently in effect or enacted at a future date, and to invoke and claim such right of priority without further written or oral authorization from Assignors.

Assignors hereby covenant with Intermediary, Assignee and their legal representatives that no assignment, grant, lien, mortgage, license, benefit of right to priority, encumbrance, or other act or agreement affecting the right, title, and interest herein sold, assigned or transferred has been made, nor will be made, to any others (except Intermediary) by the undersigned, that the rights and property herein sold, assigned or transferred are free and clear of any encumbrance which prevents or may prevent the fulfillment of this Assignment, and that Assignors were in their full right to sell, assign, and transfer the same as herein expressed.

Assignors hereby consent that a copy of this Assignment shall be deemed a full legal and formal equivalent of any assignment, consent to file, or like document which may be required in any country for any purpose, and more particularly in proof of the right of Assignee or its nominee to claim the aforesaid benefit of the right of priority.

Assignors are deemed and hereby acknowledge to have sold, assigned, transferred, and/or hereby sell, assign, and transfer, any patent applications, utility model applications, and design registrations filed in all countries, states, and regions, on any of the above-identified improvements, such sale, assignment and transfer being effective as of the earliest date of filing of any such application or registration. In testimony whereof, we, the undersigned Assignors have each hereunto set our hands.
