ASSIGNMENT

WHEREAS, Christopher E. Fisher, of Simi Valley, California, Phillip T. Tokumaru, of Thousand Oaks, California, Marc L. Schmalzel, of Simi Valley, California, John Peter Zwaan, of Simi Valley, California, Jeremy D. Tyler, of Thousand Oaks, California, Justin B. McAllister, of Simi Valley, California, Gabriel Torres, of Simi Valley, California, and Pavel Belik, of Simi Valley, California, Assignors, have invented a new and useful RECONFIGURABLE BATTERY-OPERATED VEHICLE SYSTEM, for which an application for United States Letters Patent was filed on 11/26/2012, under Serial No. 13/694,388, and Attorney Docket No. AVI1041-01US; and

WHEREAS, Assignors believe themselves to be the original and first inventors of the invention disclosed and claimed in the application for Letters Patent; and

WHEREAS, AEROVIRONMENT INC., a California corporation, having a place of business at 181 West Huntington Drive, Suite 202, Monrovia, California 91016, Assignee, desires to acquire by formal, recordable assignment the entire right, title and interest in and to the invention, the application, and any Letters Patent that might be granted for the invention in the United States and throughout the world;

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign and transfer to Assignee, the entire right, title and interest in and to the invention, the application, and any Letters Patent that might be granted for the invention in the United States and throughout the world, including the right to file foreign applications directly in the name of Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties or otherwise.

Furthermore, Assignors agree that, upon request and without further compensation, but at no expense to Assignors, they and their legal representatives and assigns will perform all lawful acts, including the execution of papers and the giving of testimony, that might be necessary or desirable for obtaining, sustaining, reissuing or enforcing Letters Patent in the United States and throughout the world for the invention, and for perfecting, recording or maintaining the title of Assignee, its

successors and assigns, to the invention, the application, and any Letters Patent granted for the invention in the United States and throughout the world.

Assignors represent and warrant that they have not granted and will not grant to others any rights inconsistent with the rights granted by this Assignment.

Assignors authorize and request the Commissioner of Patents and Trademarks of the United States and of all foreign countries to issue any Letters Patent granted for the invention, whether on the application or on any subsequently filed division, continuation, continuation-in-part or reissue application, to Assignee, its successors and assigns, as the assignee of the entire interest in the invention.

Assignors further authorize and direct the attorneys of record to insert the serial number and filing date of the application now identified by the attorney docket number and title set forth above, if they are not so inserted already, after the same shall have been made known to them by the United States Patent and Trademark Office.

Assignors agree that this agreement may be executed in counterparts, each of which shall be an original and all of which together shall constitute one and the same instrument.

IN WITNESS WHEREOF, Assignors have executed this Assignment.
