ASSIGNMENT

WHEREAS, UTAH STATE UNIVERSITY, (hereinafter referred to as "Assignor"), a state chartered institution of higher education, having a principal business address of 1450 Old Main Hill, Logan, UT 84322-1450 owns U.S. Patent No. 8,608,923, entitled "Handheld Electrochemical Sensors" (the "Patent") and;

WHEREAS, Anhong Zhou, whose post office address is 1335 North 1500 East, Logan, Utah 84341 (hereinafter referred to as "Assignee"), is desirous of acquiring the entire right, title, and interest in the Patent;

NOW, THEREFORE, in consideration of good and valuable consideration paid by Assignee, the receipt and sufficiency of which is hereby acknowledged, Assignor does hereby grant and assign to Assignee, any right, title and interest Assignee may own in the Patent. Assignee also hereby maintains the right to bring actions for infringement of any right in said Patent in its own name, including past infringement, in the United States.

Assignor hereby authorizes and requests that the United States Commissioner for Patents and Trademarks, who is duly authorized to issue any Letters Patent on said invention, and such Patent Office officials in foreign countries as are duly authorized by their patent laws to issue patents, recognize and record that Assignee is the owner of the entire right, title, and interest to the Patent listed above, for the sole use and benefit of Assignee, its successors, assigns, and legal representatives, to the full end of the term for which said Letters Patent are, or may be, granted, as fully and entirely as the same would have been held by Assignor had this assignment and sale not been made.

Assignor hereby agrees, without further consideration and without expense to Assignor, to sign all lawful papers and to perform all other lawful acts which the Assignee may request in order to make this Assignment fully effective; cooperation to the best of Assignor's ability in executing all other lawful documents pertaining to the Patent listed above; and producing evidence in any actions or proceedings concerning the invention, including, but not limited to, nullification, reissuance, extension, and infringement proceedings involving the Patent listed above.

Assignor represents that it has not transferred, licensed or otherwise granted any rights of any kind in the invention(s), to any other party.

This assignment and agreement shall be binding upon our heirs and legal representatives.

Executed this 20 day of November, 2018, at Logan, Utah.
