## ASSIGNMENT OF RIGHTS

I (We), the inventor(s) and original assignee(s), subject to the intellectual property policy and Regents' Rules Chapter 10 at Texas Tech University System and not under any obligation to assign intellectual property rights to another party, hereby affirm that in consideration for Texas Tech University System's evaluation of commercial potential and a share of income which I (we) may receive upon commercialization of my (our) invention, on the date of my (our) signature(s) as indicated below do hereby assign and transfer my (our) entire right, title, and interest in and to the invention disclosed in the invention disclosure form entitled "D-1605: Eggless, Heat Stable Mayonnaise-Type Dressing and Meat Application" and related patent applications US 15/555,439 and CN 201680026402.6 having priority date of March 4, 2015 ("Intellectual Property"), unto Texas Tech University System, a Texas Institution of higher education having a place of business at:

Texas Tech University System Office of  
Research Commercialization Box 42007  
Lubbock, TX 79409-2007

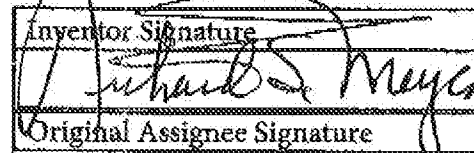

and its successors, assigns and legal representatives, and in and to said patent applications and all divisional, continuing, substitute, renewal, reissue, and all other applications for Letters Patent which have been or shall be filed in the United States and all foreign countries on any of said improvements; and in and to all original and reissued patents which have been or shall be issued in the United States and all foreign countries on said improvements; and do everything possible which said Assignee, its successors, assigns or representatives shall consider desirable for aiding in securing and maintaining proper patent protection for said invention and for vesting title to said invention and all applications for patents and all patents on said improvements in said Assignee, its successors, assigns and legal representatives; and do everything possible which said Assignee, its successors, assigns or representatives shall consider desirable for aiding in the commercialization of the invention and improvements upon said invention. The assignment and transfer of rights in the invention shall include any know how, implementations, derivatives, and embodiments of the invention (software, hardware, source code, designs, processes, procedures, compositions, devices, drawings, data, trade secrets, methods, formulas, protocols, and techniques) and improvements upon said invention. This list is by way of illustration and not limitation.

Inventor shall be entitled to fifty (50) percent of Net Revenue, the ORC shall be entitled to thirty (30) percent of Net Revenue, Texas Tech University will be entitled to five (5) percent of Net Revenue as the TTUS component unit, the Department of Animal and Food Sciences will be entitled to ten (10) percent as the Department, and the College of Agricultural Sciences and Natural Resources will be entitled to five (5) percent of Net Revenue as the Unit as consistent with Regents' Rules Chapter 10 revision dated October 09, 2015. "Net Revenue" means revenue less all Texas Tech University System costs associated with protecting the Intellectual Property, enforcing Texas Tech University System rights relative to the Intellectual Property, and any costs to market and license the technology. Additionally, Inventor shall be entitled to reimbursement of past patent expenses from revenue generated from the Intellectual Property.

Agree that said Assignee may apply for and receive Letters Patent for said improvements in its own name; and that, when requested, without charge to but at the expense of said Assignee, its successors, assignees and legal representatives, to carry out in good faith the intent and purpose of this assignment, the undersigned will execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications on any and all said improvements; execute all rightful oaths, assignments, powers of attorney and other papers; communicate to said Assignee, its successors, assigns, and representatives, all facts known to the undersigned relating to said improvements and the history thereof; and

Agree that said Assignee may apply for and receive Letters Patent for said improvements in its own name; and that, when requested, without charge to but at the expense of said Assignee, its successors, assignees and legal representatives, to carry out in good faith the intent and purpose of this assignment, the undersigned will execute all divisional, continuing, substitute, renewal, reissue, and all other patent applications on any and all said improvements; execute all rightful oaths, assignments, powers of attorney and other papers; communicate to said Assignee, its successors, assigns, and representatives, all facts known to the undersigned relating to said improvements and the history thereof; and

Covenant with said Assignee, its successors, assigns and legal representative that no assignment, grant, mortgage, license or other agreement affecting the rights and property herein conveyed has been made to others by the undersigned, and that full right to convey the same as herein expressed is possessed by the undersigned.
