WHEREAS, Estwing Manufacturing Company, Inc., hereinafter referred to as "ASSIGNEE," a limited liability company organized under the laws of Illinois, with its principal place of business at 2647 Eighth Street, Rockford, Illinois, is desirous of acquiring ASSIGNOR's entire right, title and interest in and to said invention and any improvements thereto, and in and to said application, together with any and all applications hereafter filed which are based on or related to said application, invention and improvements thereto, including any and all international applications, non-provisional applications, provisional applications, divisions, continuations, continuations-in-part, reissues and extensions thereof in all countries and territories throughout the world and under any and all international conventions, agreements and treaties; and in any Letters Patents which may be granted therefor or thereupon in any countries and territories throughout the world and under any and all international conventions, agreements, and treaties.

To the extent applicable, ASSIGNOR also hereby assigns to ASSIGNEE, its successors and assigns, all right, title and interest to sue third parties for any past, present or future infringement, and to collect all damages relating thereto, of all Letters Patents assigned herein.

ASSIGNOR also assigns to ASSIGNEE, its successors, and assigns, the right to claim the benefits of and priority to any patent or application on the invention or improvements thereof in any and all countries and territories throughout the world and under any and all international conventions and treaties.

ASSIGNOR also assigns to ASSIGNEE, all right, title and interest in and to the invention disclosed in said application throughout the world, including the right to prepare, file apply for, obtain, and maintain, under the name of the inventors and/or under the name of the ASSIGNEE, its assigns and successors, patent applications and patents, utility models, industrial models and designs in all countries and territories throughout the world and under any and all international conventions and treaties, and including all rights to publish cautionary notices reserving ownership of said invention and all rights to register said invention in appropriate registries; and ASSIGNOR further agrees to execute any and all powers of attorney, applications, assignments, oaths, declarations, affidavits, and any other papers in connection therewith deemed necessary by ASSIGNEE to perfect such right, title and interest in ASSIGNEE.
