The undersigned (hereinafter "Assignor") of the residence indicated below is the inventor of certain invention(s) and embodiment(s) thereof (hereinafter collectively the "Invention") described in a United States Design Patent Application Serial Number 29/661,938, filed on August 31, 2018, titled PROBE BODY (hereinafter the "Application").

2. Sells, assigns and transfers to Assignee the entire right to claim the benefit of priority to the Application;
3. Authorizes Assignee to file applications for patents and other forms of intellectual property protection on the Invention in any country in the name of Assignee, or otherwise as Assignee may deem advisable;
4. Authorizes and requests the Director of the United States Patent and Trademark Office, and such patent office officials in foreign countries as are duly authorized by their laws to issue patents, to issue any patents on the Invention to Assignee as the owner of the entire right, title, and interest therein or otherwise as Assignee may direct;
5. Agrees, without expense to Assignor but without further consideration, to carry out in good faith the intent and purpose of this Assignment by executing all international design applications under the Hague System, nonprovisional, divisional, renewal, substitute, continuation, continuation-in-part, continued prosecution, reissue, and all other patent applications based on the Invention; executing all rightful oaths, assignments, powers of attorney and other papers; communicating to Assignee all facts known to Assignor relating to the Invention and the history thereof; and generally, doing everything reasonably possible which Assignee shall consider desirable for aiding in securing, maintaining, and enforcing proper protection for the Invention and the Application and for vesting title in Assignee to the Invention

and all patent applications and patents based on the Invention, including, but not limited to, the Application;

6. Represents and warrants that Assignor has the full right to convey to Assignee the entire interest to the Invention and the Application, and that Assignor has not executed, and will not execute, any agreement in conflict herewith; and
