(the "PRC Patent Application(s)");

WHEREAS Intex Recreation Corp., a California, USA corporation having a place of business at 4001 Via Oro Avenue, Suite 210, Long Beach CA 90810, USA. (the "Assignee"), is desirous of acquiring all right, title and interest in the inventions disclosed in the PRC Patent Application(s), except within the PRC and the inventions disclosed therein;

NOW, THEREFORE, for good and valuable consideration, the receipt of which is hereby acknowledged, Assignor, its successors and assigns does hereby, *nunc pro tunc*, effective as of the respective filing date of each of the above PRC Patent Applications, assign unto Assignee all non-PRC right, title and interest in, to, and under, including all priority rights, to the inventions disclosed in the PRC Patent Application(s) and any and all patent applications and patents in and of all non-PRC countries including, but not limited to, Canada, the EPO and its member states, Mexico, and the United States, whether or not claiming priority thereto including, but not limited to, any child applications, Patent Cooperation Treaty applications, continuations, continuations-in-part, divisionals, reexaminations, renewals, reviews, and/or reissues thereof, and any patents resulting therefrom and including the right to sue for past infringement for its own use and enjoyment to the full end of the term(s) for which said patents may be granted, as fully and entirely as the same would have been held and enjoyed by the Assignor had this assignment and sale not been made. With the exception of the priority rights to the PRC Patent Application(s), the right, title, and interest to the respective PRC Patent Application(s) is not subject to this assignment.

The Assignor agrees to execute and have executed all papers necessary in connection with application(s) and patent(s) in any non-PRC countries and any continuing, divisional, or reissue applications thereof, and any review and reexamination of any of such applications, and also to execute separate assignments in connection with such applications and patents as the Assignee may deem necessary or expedient.

The Assignor agrees to execute and have executed all papers necessary in connection with any interference which may be declared or litigation concerning the application(s), any resulting patents, or continuation, division, reissue, review, or reexamination thereof, and to cooperate with the Assignee in every way possible in obtaining evidence and going forward with such interference, re-examination, review, or litigation.

The Assignor agrees to execute and have executed all papers and documents and perform any act which may be necessary in connection with claims or provisions of the International Convention for Protection of Industrial Property or similar agreements.

The Assignor agrees to do all other acts which, in the opinion of Assignee, may be necessary or desirable to secure the grant of any patent to Assignee or its nominees, in all non-PRC countries where Assignee may desire to have such inventions, or any of them, patented, with specifications and claims in such form as shall be approved by Assignee and to vest and confirm in Assignee or its nominees the full and complete legal and equitable title to all such patents.

The Assignor hereby authorizes and requests the Commissioner of Patents of the United States or any other non-PRC country to issue any and all patents of the United States or any other non-PRC country resulting from said application(s) or any division or continuing or reissue applications thereof, and any review or reexamination of any of such applications, to the said Assignee, as Assignee of the entire interest, and hereby covenants that the undersigned has full right to convey the interest herein assigned, and that the undersigned has not executed, and will not execute, any agreement in conflict herewith.

The Assignor hereby grants the attorney of record the power to insert on this Assignment any further identification which may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office or any other non-PRC country for recordation of this document.

The agreement shall be construed under the laws of the State of California, USA.
