**ASSIGNMENT**

This Assignment is made by me, **Jason Hardi**, having a mailing address of 520 Canon Drive, Beverly Hills, California 90210 (the "Assignor"); and

WITNESSETH: That,

WHEREAS, I am the sole inventor of certain new and useful improvements in **WIRELESS EARBUDS AND WEARABLE CHARGER AND INTEGRATED SPEAKER** for which U.S. Design Application No. **29/670,397** was filed on November 15, 2018;

WHEREAS, **Muzik Inc.**, a Delaware corporation, having its principal place of business at 9220 W. Sunset Blvd., Suite 112, West Hollywood, California 90069, USA, hereinafter referred to as assignee, is desirous of acquiring my entire right, title, and interest in and to said invention as described in said design application, and in and to any and all Letters Patent which shall be granted therefor in the United States of America and all foreign countries;

NOW, THEREFORE, To Whom It May Concern, be it known that for good and valuable consideration, the receipt and sufficiency of which is hereby acknowledged, I have sold and by these presents do hereby sell, assign, transfer, and convey unto the said assignee, its successors and assigns, my entire right, title, and interest in and to the said invention and design application, and in and to any and all subsequent patent applications which are related to or claim the benefit of priority from said design application including continuations, and continuations-in-part, or divisions thereof, and regular utility, continuations, and continuations-in-part, or divisions thereof, and in and to any and all Letters Patent of the United States of America and all foreign countries or reissues or other forms of protection thereof which may be granted for the invention in or on applications related to or claiming the benefit of priority from said design application, for the full end of the term for which said Letters Patent may be granted along with any term extensions thereof or therefor, together with the right to claim the benefit of priority from said applications in all foreign countries in accordance with the International Convention, the same to be held and enjoyed by said assignee, its successors and assigns, as fully and entirely as the same would have been held and enjoyed by me if this assignment and sale had not been made.

I further covenant and agree that, at the time of the execution and delivery of these presents, I possess title to the invention and design application above-mentioned, and that I have the unencumbered right and authority to make this assignment.

I further covenant and agree to promptly communicate to said assignee or its representatives any facts known to me relating to said invention, to testify in any interference or legal proceedings involving said invention, to execute any additional papers which may be requested to confirm the right of the assignee, its representatives, successors, or assigns to secure patent or similar protection for the said invention in all countries and to vest in the assignee my complete title to the said invention and Letters Patent, without further compensation, but at the expense of said assignee, its successors, assigns, and other legal representatives; and I hereby instruct, and further covenant and agree to bind my heirs, legal representatives, and assigns, to do same, without further compensation, but at the expense of said assignee or its representatives.
