ASSIGNMENT OF PATENT APPLICATION

WHEREAS:

I, Robert Arthur of Trenton, Michigan, also referred to herein as "The Assignor", have jointly invented with Nicholas J. Russell, Nathaniel P. Wenzel, and Michael J. Flaherty a Spindle Locking Apparatus for a Rotary Power Tool, referred to herein as "The Invention", for which a non-provisional United States Patent Application Attorney Docket No. MPT-05-SL, is being filed herewith; and

My employer, G. A. W., Inc., also known as Michigan Pneumatic Tool, Inc., having a place of business at 6850 Middlebelt Road, Romulus, Michigan 48174, referred to hereinafter as "The Assignee", is desirous of acquiring my entire right, title and interest in The Invention.

NOW THEREFORE:

For one United States Dollar (\$1.00 US) and other good and valuable consideration, the receipt whereof is acknowledged, The Assignor does hereby:

1. Sell, assign and transfer unto The Assignee the full and exclusive worldwide right to The Invention, and the entire right, title and interest in and to any and all domestic and foreign Patents which may be granted therefor; and
2. Authorize and request the United States Commissioner of Patents and Trademarks to issue any United States Patent granted on The Invention to The Assignee, of the entire right, title and interest in and to the same, for its sole use and behoof, and for the use and behoof of its legal representatives, to the full end of the term for which such United States Patent may be granted, as fully and entirely as the same would have been held by The Assignor had this assignment and sale not been made.
