NOW, for good and valuable consideration, the receipt of which is hereby acknowledged, I assign to Modern Surgical Solutions LLC, its legal representatives, successors and assigns, the entire right, title and interest in said patent application(s), including the right to claim priority of the filing date of said patent application(s) under international conventions, and in said invention as set forth in said patent application(s), including any divisional, continuation, continuation-in-part, continued prosecution, or provisional application thereof, and in all patents, including any reissued, extended or reexamined patent thereof, of the United States and of any foreign country which may be issued for said invention, as fully and completely as the same would have been held by me had this assignment not been made. AND I request the Commissioner of Patents and Trademarks to issue any Letters Patent of the United States which may be issued for said invention to said Modern Surgical Solutions LLC, its legal representatives, successors or assigns, as the sole owner of the entire right, title, and interest in said patent(s) and the invention covered thereby.
