ASSIGNMENT

WHEREAS, PAUL MARTIN (hereinafter referred to as ASSIGNOR) has made a certain new and useful invention (hereinafter referred to as INVENTION) as set forth in an application for United States Letters Patent entitled “**SYSTEM AND METHOD FOR EXTRACTING INFORMATION FROM BINARY FILES FOR VULNERABILITY DATABASE QUERIES**”, Application Number 16181300, filed 05-NOV-2018 (hereinafter referred to as APPLICATION);

WHEREAS, Harbor Labs LLC, having a place of business at 106 Old Court Rd, Suite 305, Pikesville, MD 21208 (hereinafter referred to as ASSIGNEE) is desirous of acquiring the full and exclusive right, title, and interest in, to, and under the INVENTION and the APPLICATION;

NOW THEREFORE, for good and valuable consideration, the receipt and adequacy of which are hereby acknowledged, ASSIGNOR hereby sells, assigns, and transfers to ASSIGNEE their full and exclusive right, title, and interest in the United States (including its territories and dependencies) and all countries foreign thereto in, to, and under the INVENTION, the APPLICATION, and any other United States applications (including provisional, non-provisional, utility, divisional, continuing, and reissue applications, and any applications claiming priority from the APPLICATION) based in whole or in part on the APPLICATION or in whole or in part on the INVENTION, and any patents (including extensions thereof) of any country that have been or may be granted on any of the aforesaid applications or on the INVENTION or any part thereof, and any right to priority to the APPLICATION;

ASSIGNOR hereby authorizes and request the Commissioner for Patents of the United States of America to issue any and all United States Patents that may be granted on the aforesaid applications or on the INVENTION or any part thereof, in the name of ASSIGNEE;

ASSIGNOR hereby grants the attorney of record the power to insert on this agreement any further identification that may be necessary or desirable in order to comply with the rules of the United States Patent and Trademark Office for recordation of this document.

In the event that ASSIGNEE is unable, after reasonable effort, to secure ASSIGNOR's signatures on any APPLICATION, paper, or other instrument relating to any patent, patent APPLICATION, letters patent, copyright, or other analogous protection relating to the INVENTION in any country, whether because of the ASSIGNOR's mental incapacity, death, or for any other reason whatsoever, said ASSIGNOR hereby irrevocably designates and appoint ASSIGNEE and its duly authorized officers and agents as said ASSIGNOR's agent and attorney in fact to act for and to execute and file any such application, paper, or other instrument on said ASSIGNOR's behalf, and to do all other lawfully permitted acts to further the prosecution and issuance of any patent, patent application, letters patent, copyright, or any other analogous protection related to the INVENTION, with the same legal force and effect as if executed by said ASSIGNOR.

ASSIGNOR hereby covenants that no assignment, sale, agreement, or encumbrance has been or will be made or entered into which would conflict with this sale, assignment, and

“System and Method for Extracting Information From  
Binary Files for Vulnerability Database Queries”  
Application Number 16181300

transfer, and that said ASSIGNOR has the rights, titles, and interests to convey as set forth herein; AND

ASSIGNOR further covenants that upon ASSIGNEE's request, it will provide promptly to ASSIGNEE all pertinent facts and documents relating to the aforesaid applications and the INVENTION as may be known and accessible to said ASSIGNOR, and said ASSIGNOR will testify as to the same in any interference or litigation related thereto, and will promptly execute and deliver to ASSIGNEE, or its legal representatives, or its successor, without further consideration, any and all papers, instruments, or affidavits required to apply for, obtain, maintain, and enforce the aforesaid APPLICATION, as may be deemed necessary or desirable by ASSIGNEE to carry out the purposes hereof.

**Assignor**
