Assignment

WHEREAS, **NUGRIPMETAL S.A.R.L.** whose full post office address is **46A, Avenue J.F. Kennedy, Luxembourg 1855** (hereinafter the "Assignor") is the assignor of inventions as fully set forth and described in patents and patent applications listed in Schedule "A" appended thereto; and

AND WHEREAS, **GRIPMETAL LIMITED**, whose full post office address is **Suite D, Ground Floor, Ashtown Business Centre, Navan Road, Dublin 15, Ireland** (hereinafter the "Assignee"), wishes to acquire all the Assignors' right, title and interest in and to the Inventions and to:

- a) all patent applications which may be filed for the Invention, including International Applications under the Patent Cooperation Treaty;
- b) all Letters Patent which may be granted or issued for the Invention;
- c) any divisions, continuations, renewals, prolongations, reissues and extensions of such patent applications and Letters Patent;
- d) all associated international priority rights;
- e) the right to file and prosecute such applications; and
- f) any and all patents which have been or may be granted by any country based either in whole or in part on the Invention of the patent applications and Letters Patent in all countries of the world, including the United States (collectively "the Patents");

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00) and other good and valuable consideration, the receipt and sufficiency of which is acknowledged, the Assignors sell, assign, and convey to **GRIPMETAL LIMITED**, its successors and assigns, all of the Assignors' right, title and interest in and to the Invention and the Patents, including the right to sue for and collect for said past infringements;

The Assignors authorize and request the duly constituted authorities of all countries of the world, including the Commissioner of Patents of the United States and the Commissioner of Patents of Canada, to issue the Patents to the Assignee, its successors and assigns, in accordance with the terms of this Assignment;

The Assignors have covenanted, and hereby covenant that they have the right to grant the rights and assume the obligations of this Assignment and that they have not executed, and will not execute, any agreement in conflict with this Agreement;

The Assignors agree that they will, promptly on request and without further consideration, communicate and co-operate fully with the Assignee, its successors and assigns, in all matters pertaining to the Invention(s) and the Patents including:

- a) the provision of all facts known and documents available to the Assignors relating to Invention(s) and Patents (including the histories thereof);
- b) the provision of oral and documentary evidence in any legal or administrative proceedings; and
- c) the execution of assignments, patent applications and any other documents which may be lawfully required by the Assignee or its successors or assigns

that, in the opinion of the Assignee, its successors and assigns, are desirable to file, prosecute, maintain or enforce the Patents, and for perfecting and maintaining the title to the Patents of the Assignee, its successors and assigns in all countries of the world, including the United States of America.
