EXHIBIT B

Patent Assignment

United Services Automobile Association, a Texas inter-insurance exchange, with an office at 9800 Fredericksburg Road, San Antonio, TX 78288 ("Assignor") is the sole owner of the patents and patent applications listed in Schedule 1 hereto (collectively the "Listed Patents"); and

Intel Corporation, a Delaware corporation, with an office at 2200 Mission College Blvd RNB4-150, Santa Clara, CA 95054, ("Assignee") desires to acquire all right, title and interest in the Listed Patents and the related rights described below.

For good and valuable consideration, the receipt of which is hereby acknowledged, Assignor does hereby sell, assign, transfer and convey to Assignee and its successors and assigns all right, title and interest that may exist today and in the future to any and all:

- (1) Listed Patents;
- (2) patents and patent applications to which any of the Patents directly or indirectly claims, or forms the basis for, priority anywhere in the world;
- (3) reissues, reexaminations, extensions, continuations, continuations in part, continuing prosecution applications and divisions of any of the items covered by (1) or (2) above;
- (4) foreign counterparts to any of the items covered by (1), (2) or (3) above, including without limitation utility models, inventors' certificates, industrial design protection and any other form of governmental grants or issuances for the protection of inventions, designs or discoveries;
- (5) patentable inventions disclosed in the specification of any pending applications included in items covered by (1) through (4) above, regardless of whether the subject of a patent claim in the Listed Patents;
- (6) patents that issue from any of the items covered by (1) through (5) above;
- (7) claims, causes of action and enforcement rights of any kind, whether currently pending, filed or otherwise, and whether known or unknown, under or arising from any of the items covered by (1) through (6) above, including without limitation all rights to pursue and collect damages, costs, injunctive relief and other remedies for past, current or future infringement thereof and including without limitation rights afforded under 35 U.S.C. § 154(d); and
- (8) rights to apply for, file, register, maintain, extend and renew in any or all countries of the world patents, certificates of invention, utility models, industrial design protection, design patent protection and other governmental grants or issuances of

Confidential

any kind related to any of the items covered by (1) through (7) above.

Assignor shall execute and deliver any instruments, and do and perform any other acts and things as may be reasonably necessary or desirable for effecting and evidencing the assignments contemplated hereby, including without limitation the execution, acknowledgment and recordation of any instruments.

Assignor hereby authorizes and requests the Commissioner of Patents and Trademarks and any other patent office to issue any and all patents, utility models or other governmental grants or issuances pertaining to any of the items assigned hereunder in the name of Assignee.

The assignments and rights pursuant hereto will inure to the benefit of Assignee and its successors, assigns and other legal representatives and is binding upon Assignor and its successors, assigns, heirs and legal representatives.

Assignor, by its duly authorized representative, has executed this assignment on the date set forth below.
