ASSIGNMENT

WHEREAS Vergent Bioscience, Inc., a Delaware corporation, (hereinafter "Assignor"), by virtue of its ownership in the following applications and to the inventions described therein desires to assign to ImmunoChemistry Technologies, LLC, a Minnesota limited liability company, and its successors and assigns (collectively hereinafter called "the Assignee"), all of its entire right, title and interest throughout the world in, to, and under said applications and inventions described therein.

Jurisdiction	Patent Number	Patent Application Number	Status
PCT	-	PCT/US2006/040047	Completed
IL	190949	190949	Issued
KR	10-1449507	10-2008-7012034	Issued
US	8,187,573	12/091,031	Issued

NOW, THEREFORE, to all whom it may concern, be it known that for good and valuable consideration, the receipt and sufficiency whereof is hereby acknowledged, Assignor hereby sells, assigns, transfers and sets over unto said Assignee Assignor's entire right, title and interest to all inventions disclosed in the aforesaid applications, including all priority applications, and rights to claim priority therefrom, and to any and all present or future patent applications to such inventions filed in the United States or any other country or region, inclusive of, but not limited to, all divisions, continuations, continuations-in-part, renewals thereof, substitutions, reexaminations, reissues, provisional patent applications, applications filed under the Patent Cooperation Treaty, certificates of addition, utility models, and petty patents, as well as all other intellectual property related to the applications, inclusive of, but not limited to, supplementary protection certificates, and to any and all Letters Patents and any related patent term extensions that may be granted for said Letters Patents with respect to the application(s); all of the above to be held by Assignee as fully and entirely as the same would have been held by Assignor had this Assignment not been made.

Assignee shall have the right to apply in all countries in its own name for patents, utility models, design registrations and like rights of exclusion and for inventors' certificates for said invention and improvements thereof. Assignor agrees without further compensation to perform such lawful acts and to sign such further applications, assignments, Preliminary Statements, and other lawful documents as the Assignee may reasonably request to effectuate fully this Assignment.

IN TESTIMONY WHEREOF, I hereto set my hand this 12th day of October, 2018.
