I, Steven John Romanowski, am a named inventor of United States Design Patent application serial number 29/620,285, entitled Locking Handles for Ranger Drawers. This document confirms that for good and valuable consideration, the sufficiency and receipt of which I hereby acknowledge, I have irrevocably assigned all of my right, title, and interest (if any exists now or hereafter) in that patent application and in the invention(s) described therein, to Heartland Recreational Vehicles, LLC.

This assignment includes any other patent applications which may claim priority from the '285 patent application, whether as continuation(s), divisional(s), continuation(s)-in-part, or otherwise, as well as any re-examination or reissue applications based upon the '285 patent application. With respect to any other intellectual property rights in the invention(s) and all documentation related thereto, I acknowledge that all work in that regard was "work for hire" on behalf of my employer, and I agree to execute, without payment of any consideration, any additional documents as may be necessary to assign or confirm the assignment of those rights to Heartland Recreational Vehicles, LLC.

I authorize any patent(s) which issued in this regard to be issued to Heartland Recreational Vehicles, LLC.
