THIS ASSIGNMENT, by Patrick NEIL of Englewood, CO; Robert KLEPPER of _____; Jim KLEPPER of _____; and Dave BAKER of Denver, CO (hereinafter referred to as the assignors, individually and collectively) witnesseth:

WHEREAS, said assignors have invented certain new and useful inventions in the invention disclosure entitled "THE MODULAR AND MOBILE AUTOMATED SOLVENT EXTRACTION AND DISTILLATION SYSTEM, AKA "THE UNICORN", Attorney Docket No. BIP-100, said invention disclosure first received by O'Connor & Company on August 8, 2016 and additional invention disclosure received by O'Connor & Company on March 27, 2017, not yet filed with the United States Patent and Trademark Office;

WHEREAS, Botanex Intellectual Property LLC, a Colorado limited liability company located at Englewood, CO, together with its successors and assigns (hereinafter referred to as the assignee) is desirous of acquiring the entire right, title and interest in and to said inventions and any application for Letters Patent claiming priority thereto or in any way arising therefrom, and in and to any Letters Patent or Patents, United States or foreign, to be obtained therefor and thereon:

NOW, THEREFORE, for good and sufficient consideration, the receipt of which is hereby acknowledged, said assignors have sold, assigned, transferred and set over, and by these presents do sell, assign, transfer and set over, unto said assignee, its successors, legal representatives and assigns, the entire right, title and interest in and to the above-mentioned inventions, any related intellectual property (whether or not patentable) or intellectual property derived therefrom (whether or not patentable), in the field of solvent-based extraction for the purpose of extracting botanicals from plant material, and any application for Letters Patent arising therefrom, and any and all Letters Patent or Patents in the United States of America and all foreign countries which may be granted therefore and thereon, and in and to any and all conversions, divisions, continuations, and continuations-in-part of said application, or reissues or extensions of said Letters Patent or Patents, and all rights under the treaties providing for the protection and/or facilitation of industrial property administered by the World Intellectual Property Organization, the same to be held and enjoyed by said assignee, for its own use and the use of its successors, legal representatives and assigns, to the full end of the term or terms for

which Letters Patent or Patents may be granted, as fully and entirely as the same would have been held and enjoyed by the assignors, had this sale and assignment not been made.

AND for the same consideration, said assignors hereby covenant and agree to and with said assignee, its successors, legal representatives and assigns, that, at the time of execution and delivery of these presents, said assignors are the sole and lawful owners of the entire right, title, and interest in and to said inventions, that the same is unencumbered and that said assignors have good and full right and lawful authority to sell and convey the same in the manner herein set forth.

AND for the same consideration, said assignors hereby covenant and agree to and with said assignee, its successors, legal representatives and assigns, that said assignors will, whenever counsel of said assignee, or the counsel of its successors, legal representatives and assigns, shall advise that any proceeding in connection with said inventions, or said application for Letters Patent arising therefrom, or any proceeding in connection with any Letters Patent for said inventions in any country, including interference proceedings, is lawful and desirable, or that any division, continuation, or continuation-in-part of any application for Letters Patent or any reissue or extension of any Letters Patent, to be obtained thereon, is lawful and desirable, sign all papers and documents, take all lawful oaths, and do all acts necessary or required to be done for the procurement, maintenance, enforcement and defense of any Letters Patent for said inventions, without charge to said assignors, their successors, legal representatives and assigns, but at the cost and expense of said assignee, its successors, legal representatives and assigns.
