**ASSIGNMENT**  
(Patent Application)

I, James Harrison, have invented certain inventions and improvements disclosed in a utility (provisional or non-provisional) or design patent application entitled

“SYSTEM FOR SEPARATION OF VISCOUS MATERIALS FROM SOLIDS,”

the specification of which is provided with this Assignment and identified by the Attorney Docket No. above (Application No. 16/153,439, filed on October 5, 2018).

For good and valuable consideration, the receipt and sufficiency of which I acknowledge,  
I:

1. Agree to assign, transfer, convey, and sell, hereby assign, transfer, convey, and sell and have assigned, transferred, conveyed, and sold to STItech Industries Inc., Unit 109, 3903 – 75<sup>th</sup> Avenue, Leduc, Alberta T9E 0K3 Canada (“Assignee”), the entire right, title, and interest in and to:
  - (a) all intellectual property (including, without limitation, any innovation, information, invention, discovery, product, process, work or design) disclosed, embodied, shown, or claimed in the above-referenced patent application, implicitly or explicitly;
  - (b) the above-referenced patent application, the right to claim priority to the above-referenced patent application, all applications based in whole or in part upon the above-referenced patent application, including, without limitation, all applications that are a provisional, non-provisional, design, divisional, continuation, continuation-in-part, registration, utility model, industrial design, reissue, renewal, substitute, extension, reexamination, post-grant review, inter partes review, supplemental examination or non-U.S. patent application or application for other rights based in whole or in part on the above-referenced patent application;
  - (c) all patents (including, without limitation, all U.S. and non-U.S. patents, registrations, utility models, industrial designs, design patents, counterparts, continuations, continuations-in-part, divisionals, reissues, renewals, substitutes, extensions, reexaminations, post-grant reviews, inter partes reviews and supplemental examinations) that are granted or issued upon, or that claim priority to, any and all applications described in (b) of this paragraph or that disclose or claim intellectual property described in (a) of this paragraph, in whole or in part; and
  - (d) all claims for damages by reason of past infringement of any rights under the applications or patents described in (a), (b) or (c) of this paragraph (including
