**Invention Title: TOPSIDE SPRING TENSION ADJUSTER FOR BASS DRUM PEDALS WITH VARIABLE PIVOT POINT SPRING ROTOR**

**ASSIGNMENT**

WHEREAS, I, Darrell N. Johnston of 1065 Lomita Blvd., SPC 220, Harbor City, CA 90710, United States of America (hereinafter "Assignor") have invented certain new and useful improvements in the TOPSIDE SPRING TENSION ADJUSTER FOR BASS DRUM PEDALS WITH VARIABLE PIVOT POINT SPRING ROTOR (hereinafter "Invention"), for which a United States Patent was granted as U.S. Patent No. 8,686,265 on April 01, 2014.

**AND**

WHEREAS, Axis Percussion, Inc., a corporation organized and existing under the laws of the State of California, and having a place of business at 24416 South Main Street, Suite 311, Carson, California 90745, United States of America, (hereinafter "Assignee"), is desirous of acquiring the entire right, title, and interest in the Invention within the United States of America and its territorial possessions, and in all foreign countries in which intellectual or industrial property protection may be granted therefor.

NOW, THEREFORE, for good and valuable consideration, the receipt whereof is hereby acknowledged, I, the Assignor desire to and do hereby assign, sell, and transfer unto Assignee the full and exclusive right to the Invention in the United States of America and its territorial possessions and in all foreign countries, as well as, the entire right, title and interest in and to any and all intellectual or industrial property rights including, but not limited to, Patents, designs, utility models, and inventor certificates which may be granted therefore in the United States of America and its territorial possessions and in all foreign countries, I hereby authorize and request the U.S. Patent Offices and the equivalent offices at foreign countries, to issue to the Assignee, any and all applicable intellectual or industrial property rights in the Invention, for the Assignee's sole use and benefit; and for the use and benefit of his legal representatives, to the full end of the term for which United States and foreign Patents or the like are or may be granted, as fully and entirely as the same would have been held by me had this assignment and sale not been made.

I further covenant and agree with the Assignee that I have a full and unencumbered title to the invention hereby assigned, which title I warrant unto the Assignee, and I further agree that I will, without demanding any further consideration therefore, at the request and at the expense of the Assignee, do all lawful and just acts, including the execution and acknowledgment of instruments, that may be or become necessary for obtaining, sustaining, extending, reissuing or reexamining United States and foreign Patents or the like for the Invention, and for maintaining and perfecting the Assignee's right to the Invention and any and all intellectual or industrial property rights in it, particularly in cases of interference, conflict, opposition and litigation.

IN TESTIMONY WHEREOF, I have hereunto set my hand.

Executed on 12/27 (day), 2018, at Carson (city), California.
