WHEREAS, Assignor is sole inventor of new and useful improvements in "Healthcare Provider Interface for Treatment Option and Authorization" for which an application for United States Letters Patent was filed on 12/06/2018, in the United States Patent and Trademark Office, bearing Serial Number 16/212,236, and identified as UNMC Docket No. 17078.

WHEREAS, Assignor believes that Assignor is an original sole inventor of the invention disclosed and claimed in said application for Letters Patent; and

WHEREAS, the parties desire to have a recordable instrument assigning the entirety of Assignor's right, title and interest in and to said invention, said application and any Letters Patent that may be granted for said invention in the United States and throughout the world;

NOW, THEREFORE, in accordance with the obligations to assign the invention and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, Assignors hereby sell, assign, and transfer to Assignee, to the extent not already assigned to Assignee, the entirety of Assignors' rights, titles, and interests in and to said invention, said application, any and all other patent applications anywhere in the world which the undersigned may file and/or be named as an inventor, solely or jointly, and in any and all reissues, reexaminations, supplemental examinations, inter parties reviews, oppositions, post-grant reviews, supplementary protection certificates and/or extensions thereof, including without limitation, the right to bring suit and to claim and retain all damages and/or seek other remedies for the past, present and future infringement of any of the foregoing, and any Letters Patent that may be granted for said invention in the United States and throughout the world, including the right to file foreign applications directly in the name of the Assignee and to claim for any such foreign applications any priority rights to which such applications are entitled under international conventions, treaties, or otherwise.
