ASSIGNMENT OF PATENTS

This Assignment of Patents (hereinafter referred to as "Agreement") is executed on December 17th 2018, and entered into to be effective as of December 15, 2018, by and between Pil Hee Lee, an individual (hereinafter referred to as "Assignor"), and Shinning Co., Ltd., a Korean company (hereinafter referred to as "Assignee"). Assignor and Assignee may hereafter be referred to herein as a Party or the Parties.

WHEREAS, Assignor is the owner of record and owner in fact of the United States Design Patents and United States Patents identified in the attached **Schedule A** (hereinafter the "Patents"), which is hereby incorporated by reference as if set forth in full herein;

WHEREAS, Assignee is a company that desires to own the Patents and related rights and remedies; and

WHEREAS, Assignor desires to transfer and assign to Assignee ownership of the Patents and all related rights and remedies;

ACCORDINGLY, the Parties agree as follows:

1. Patents Assignment to Assignee. Assignor hereby conveys and assigns to Assignee, and Assignee accepts, Assignor's entire right, title and interest in and to the Patents and the inventions and designs disclosed therein, including all continuation, continuation-in-part and divisional applications and all continuing prosecution applications based in whole or in part on the applications or on which the applications are based in whole or in part, and including all patents, as well as reexaminations and reissues thereof resulting from the applications. This conveyance includes Assignor's entire right, title, and interest in and to all counterparts to the applications that have been or may be filed inside or outside the United States, whether pursued as a patent, an inventor's certificate, a utility model or the like, including all rights of priority based on the applications, further including all continuation, continuation-in-part and divisional applications and all continuing prosecution applications based in whole or in part on the non-U.S. counterparts, and still further including all patents, inventor's certificates, utility models and reissues based upon or resulting from any of the non-U.S. counterparts. For avoidance of doubt, the Parties acknowledge that through this Agreement Assignee will own the Patents and all rights thereunder.

2. Enforcement of Intellectual Property Rights. Assignor hereby conveys and assigns to Assignee, and Assignee accepts, Assignor's entire rights, remedies, claims, and causes of action as they relate to the Patents and/or the infringement of Assignee's rights in connection herewith, including all rights, remedies, claims and causes of action that accrued at any time in the past or present or will occur in the future. In any action or proceeding, the Parties agree to cooperate with each other in all matters that relate to or affect the prosecution, validity, enforceability and protection of the Patents.

3. Recordation of Transfer. To the extent not already recorded, at Assignee's expense and as promptly as practicable after the date hereof, Assignor shall file with the United States Patent and Trademark Office ("USPTO") assignments and other documentation to effectively assign to

Assignee the Patents. Assignor authorizes the Commissioner for Patents and the Commissioner for Trademarks in the USPTO, and officials of any corresponding entities or agencies in any other jurisdictions, to record and register any such assignments of the Patents.

4. Consideration. Each Party acknowledges that the other Party has provided, and it has received, valuable consideration sufficient and adequate for the rights granted to it under this Agreement.

5. Severability. If any provision of this Agreement is determined to be invalid or unenforceable, it shall be amended by the Parties consistent with the intent of this Agreement to the narrowest extent possible to render that provision valid and enforceable or, if necessary, removed from this Agreement, and shall not affect the validity and enforceability of the other provisions of this Agreement.

6. Counterparts and Authority. This Agreement may be executed in counterparts and signatures transmitted by facsimile or .PDF or electronic mail will have the same force and effect as originals.
