ASSIGNMENT

For good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the **University of Maryland, Baltimore**, a public university that is part of the University System of Maryland (which is a public corporation and an instrumentality of the State of Maryland) and having an office at Office of Research and Development, 620 W. Lexington Street, 4th floor, Baltimore, MD 21201 ("**Assignor**") hereby sells, assigns, and transfers to **The United States Government as represented by the Department of Veterans Affairs** having an office located at Office of General Counsel, 810 Vermont Avenue, N.W., Washington, DC, 20420 ("**Assignee**"), a joint undivided right, title, and interest in and to the invention known as "**Methods of Making Active Antibodies from Biological Fluids**" (the "**Invention**"):

check applicable space(s) for the United States of America (as defined in 35 U.S.C. §100)
 and throughout the world,

for which applications for patent were filed in the United States of America on **November 16, 2018** (also known as U.S. non-provisional patent application serial number **16/302,525**), and under the Patent Cooperation Treaty on **May 25, 2017** (also known as international patent application number **PCT/US2017/034581**), and in any and all non-provisional and/or international or foreign patent applications thereon, continuing patent applications thereon (including without limitation substitutions, divisionals, continuations, and continuations-in-part), patents or Letters Patent issued therefrom, and reissues, extensions, renewals, and reexaminations of such applications or patents.

Such joint, undivided right, title, and interest in the Invention are to be held and enjoyed by the Assignee to the same extent as they would have been held and enjoyed by Assignor had this Assignment not been made, to the full end of the term or terms for which any such patent(s) issue. Assignor hereby represents and warrants that it has full right to convey its right, title, and interest in the Invention herein assigned, and that it has not executed and will not execute any agreement or other document in conflict therewith.

Assignor agrees to execute and deliver separate Assignments, patent applications, and other documents necessary or expedient in connection with, and to cooperate with and to assist Assignee in connection with, further perfecting the assignment of the Invention to Assignee.

IN WITNESS WHEREOF, executed by Assignor as of November 28, 2018
