This Patent Assignment (this "Assignment"), is entered into as of this 20th day of July, 2018, by and among BRAVEN LC, a Utah limited liability company and INCIPIO, LLC, a Delaware limited liability company (together, "Assignor"), and ZAGG AMPLIFIED, INC., a Delaware corporation ("Assignee"). Each of the parties to this Assignment is sometimes referred to individually in this Assignment as a "Party," and all of the parties to this Assignment are sometimes collectively referred to in this Assignment as the "Parties."

Assignor and Assignee have entered into that certain Asset Purchase Agreement dated as of the date hereof (the "Purchase Agreement").

Pursuant to the Purchase Agreement, the Assignor has agreed to execute this Assignment and assign to the Assignee all of Assignor's right, title and interest in and to the patent registrations set forth on the attached Schedule 1, and all issuances, divisions, continuations, continuations-in-part, reissues, extensions, reexaminations, and renewals related thereto (collectively, the "Patents"), and the Assignee has agreed to acquire all right, title and interest in and to the Patents.

In consideration of the mutual promises herein contained and other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the Parties agree as follows:

1. Definitions. Capitalized terms used in this Assignment but not defined in this Assignment have the meaning ascribed to them in the Purchase Agreement.

2. Assignment. Under the terms set forth in the Purchase Agreement, Assignor hereby sells, conveys, transfers, assigns and delivers to the Assignee, all of the Assignor's worldwide rights, title and interest and benefit in and to the Patents together with the right to all present and future income, royalties, fees, damages, payments and other proceeds now or hereafter due or payable with respect to the foregoing, and all rights of action, both at law and in equity with respect thereto, including all rights to sue, settle any claims, and collect all damages for any present or future infringement or misappropriation of, as of the Closing Date, the Patents, including the goodwill of the businesses connected to the use of any of the Patents, the same to be held and enjoyed by the Assignee, its successors and assigns forever, as fully and entirely as the same could have been held and enjoyed by the Assignor if this Assignment had not been made, and the Assignee does hereby accept such sale, assignment, transfer, grant, conveyance and set over.

3. Recordation. Assignor hereby authorizes and requests the Commissioner for Patents in the United States Patent and Trademark Office, or any foreign equivalent thereto, and any other Governmental Body to record the Assignee as owner of the Patents, and of the entire title and interest in, to and under the same, for the use and enjoyment of the Assignee, its successors, assigns and other legal representatives. Assignor shall take such steps and actions, and provide such cooperation and assistance to Assignee and its successors, assigns, and legal representatives, including the execution and delivery of any affidavits, declarations, oaths,

exhibits, assignments, powers of attorney, or other documents, as may be necessary to effect, evidence, or perfect the assignment of the Patents to Assignee, or any assignee or successor thereto.

4. Cooperation. Assignor agrees that it will communicate to the Assignee, its successors, legal representatives and assigns, any material facts (including information relating to use or non-use, enforceability, or infringement of the Patents) known to the Assignor with respect to the Patents, and, at Assignee's cost, it will, as reasonably requested by Assignee, testify in any legal proceeding, sign all lawful papers, execute all applications (including, but not limited to, powers of attorney, specific assignments, transfers and assurances), make all rightful oaths and use commercially reasonable efforts at the reasonable request of the Assignee to aid the Assignee, its successors, legal representatives and assigns in obtaining and enforcing protection for the Patents and in enjoying the full benefits thereof.
