### **Declaration Under MPEP 323.01(c) by G. Creston Campbell**

1. I am currently employed full-time by E.I. DuPont de Nemours and Company (DuPont) as a Patent Agent in the Legal Function, and I have responsibility for the above-identified case.

2. I recently became aware that this case had an improper assignment recorded against it by another party.

3. The case in question is:

Application Number: 14/383,138

Filing or 371(c) Date: 09-05-2014

Earliest Publication No.: US 2015-0014675 A1

Earliest Publication Date: 01-15-2015

Patent Number: 9,593,085

Issue Date of Patent: 03-14-2017

4. A proper assignment for this case to DuPont was recorded by all 3 inventors on 08/17/2016.

Reel / Frame: 039461 / 0974

5. Subsequent to the assignment recordation above, on 12/21/2016, an improper assignment was recorded against the same property by representatives of Utah State University.

Reel / Frame: 041152 / 0165

6. My review of the assignment documents associated with the improper recordation above suggests that the intent of the Utah State University representatives was to record an assignment of U.S. Provisional Patent Application No. 61/865,304 by the inventors to the University. It is not clear to me, however, why this item appears on the improper Patent Assignment Cover Sheet:

Application No.: 14/383138

Case No.: UC1115-US-PCT

Confirmation No.: 8672

**PROPERTY NUMBERS Total: 1**

<b>Application Number:</b>	14383138

as it does not appear to be related to the Provisional Patent Application that Utah State University intended to assign. It is, however, the application number associated with our property as identified in Paragraph 3 above and elsewhere herein.

7. Several attempts in the past few months (late-2018) to engage Utah State University's Legal representatives to provide a remedy to this situation were unsuccessful.

8. This Declaration Under MPEP 323.01(c) is therefore being submitted by me, as a representative of DuPont, to correct the improper assignment currently recorded for this case. Please note that:

(1) E.I. DuPont de Nemours and Company (DuPont) is the correct owner of the property identified in Paragraph 3 above and elsewhere herein.

(2) The Utah State University assignment recordation document was submitted with erroneous information, and

(3) The improper assignment document can be found at Reel / Frame: 041152 / 0165.

Also note that the correct chain of title for this case was in no way altered by the improper assignment recordation as corrected herewith. The original applicant / patentee (DuPont) has always been, and continues to be, the owner of this application / patent.

9. Submitted herewith is a completed cover sheet that identifies case in question, completed as prescribed in MPEP 323.01(c).

10. I also authorize you to process the fees required to make this correction to 04-1928 (E.I. du Pont de Nemours and Company).
