Assignors are inventors of an invention titled

Spectacles With Dual Salon and Traditional Configurations

described in the U.S. Patent Application No. 16/207,334 filed December 3, 2018 (the “Patent Application”). (If blank, Assignors permit the application number and filing date to be inserted by Assignee’s representative after the signature date(s) below.)

Assignee desires to acquire all rights in and to the Patent Application and any patent that may be granted from the Patent Application.

Therefore, for valuable consideration, the receipt of which is acknowledged, Assignors hereby assign to Assignee 100% of their right, title, and interest in the invention and Patent Application (as well as such rights in any divisions, continuations in whole or part or substitute applications) to Assignee for the entire term of the issued Patent and any reissues or extensions that may be granted and for the entire terms of any and all foreign patents that may issue from foreign applications (as well as divisions, continuations in whole or part or substitute applications) filed claiming the benefit of, or related to, the Patent Application.

Assignors authorize the United States Patent and Trademark Office to issue any Patents resulting from the Patent Application to Assignee according to the percentage interest indicated in this assignment. The right, title and interest in the Patent Application is to be held and enjoyed by Assignee and Assignee’s successors and assigns as fully and

exclusively as it would have been held and enjoyed by Assignors had this assignment not been made.

Assignors further agree to: (a) cooperate with Assignee in the prosecution of the Patent Application and foreign counterparts; (b) execute, verify, acknowledge and deliver all such further papers, including patent applications and instruments of transfer; and (c) perform such other acts as Assignee lawfully may request to obtain or maintain any patent for the invention described in the Patent Application in any and all countries.
