WHEREAS, Assignor is the exclusive owner of the Assigned Patent; and

WHEREAS, Assignee wishes to be the exclusive owner of the Assigned Patent, and Assignor wishes to transfer all of its ownership of the Assigned Patent to Assignee;

NOW, THEREFORE, in consideration of the Agreement and the mutual covenants and promises contained herein, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties hereto agree as follows:

1. Assignment. Assignor hereby irrevocably conveys, transfers, assigns and delivers to Assignee, its successors and assigns, Assignor's entire right, title and interest in the U.S. and all foreign countries in and to the Assigned Patent and all rights, claims and privileges pertaining thereto, including without limitation, all inventions and discoveries disclosed therein, certificates of invention and applications for certificates of invention, and any substitutions, reissues, reexaminations, divisions, renewals, extensions, provisionals, continuations, continuations-in-part, continued prosecution applications, and corresponding foreign patents and patent applications and foreign counterparts thereof, and any and all rights to sue and recover for claims and remedies against and collect damages and other recoveries for past, present and future infringements of any or all of the foregoing, and rights for priority and protection of interests therein under the laws of any jurisdiction and hereby grants to Assignee the right to apply, obtain and hold in its own name for patents or inventor's certificates and related rights heretofore or hereafter filed in any and all countries, including, without limitation, the right to prosecute and maintain the same and all rights to claim priority based thereon, all patents granted thereon and all reissues, extensions and renewals thereof.

2. Rights and Privileges. All rights and privileges, including the right to sue for and receive all damages from past infringements of the Assigned Patent, will be held and enjoyed by the Assignee and its successors, assigns and other legal representatives.

3. Further Assurances. Assignor represents and warrants to Assignee, its successors and assigns that on the date hereof Assignor is the exclusive owner of the Assigned Patent and has the right to assign the Assigned Patent. Assignor agrees, at the Assignee's expense and request: (i) to assign, deliver and communicate to Assignee, its representatives, agents, successors and

assigns any facts and materials relating to the Assigned Patent, including evidence for interference purposes or for other legal proceedings whenever requested and all files, documents and communications pertaining to the Assigned Patent, including all communications to and from the U.S. Patent and Trademark Office and any and all legal counsel advising on or assisting with the Assigned Patent; (ii) to testify in any interference or other legal proceedings whenever requested; (iii) to execute and deliver whenever requested all lawful papers required to make any of the foregoing provisions effective; and (iv) to generally provide all further cooperation, including taking such further action and executing such additional documents, which Assignee, its successors and assigns reasonably request to secure, obtain or enforce proper protection for the Assigned Patent and all associated rights in this or any foreign country.

4. Authorization. Assignor authorizes and requests the Commissioner of Patents and Trademarks of the United States, and any other official throughout the world whose duty is to register and record ownership in patent registrations and applications for registration of patents, to record Assignee as the assignee and owner of any and all of Assignor's rights in the Assigned Patent.

5. Covenant Not to Sue. Assignor hereby releases, discharges, and covenants not to assert against Assignee, and Assignee's parents, subsidiaries, contractors, customers, suppliers, affiliates, agents, employees, directors, representatives, successors, assigns, licensors, licensees, partners, joint venturers, and distributors all claims, causes, obligations, rights of action, or liabilities of any kind or nature, whether now existing or hereinafter arising and whether known or unknown, arising from or relating to proprietary rights in the Assigned Patent.

6. Miscellaneous. This Assignment will be binding upon and inure to the benefit of the parties hereto and their respective successors and permitted assigns, each of which such successors and permitted assigns will be deemed to be a party hereto for all purposes hereof. This Assignment and any of the terms contained herein may be amended or modified by Assignor and Assignee only in writing. This Assignment is executed by, and shall be binding upon, Assignor and Assignee and their respective successors and assigns, for the uses and purposes set forth and referred to above, effective immediately upon its delivery to Assignee. In the event that any provision of this Assignment is construed to conflict with a provision in the Agreement, the provision in the Agreement shall be deemed to be controlling.
