ASSIGNMENT

Identification of Invention and Application

The below named inventor and Assignor, hereby declares that this Assignment is directed to:

Invention: Self-Lifting Concrete Form With Platform Adapted To Accommodate Horizontal Reinforcing Steel

Application: United States application serial number 15/598,059, filed on 5/17/2017, including all rights of priority claimed in said application.

For good and valuable consideration, the receipt of which is acknowledged by the inventor Norton Baum, **Norton Baum ("Assignor")**, residing at **2110 Bannockburn, Inverness, IL 60067** hereby assigns to **Forming Concepts, Inc., an Illinois Corporation having offices at 185 Industrial Drive, Gilberts, IL 60136** ("Assignee") all title, right and interest in the Invention and Application, including the assigned rights as more fully set forth herein.

The assigned rights include, but are not limited to, all rights to file any United States patent applications, international patent applications, and any foreign patent applications, utility patent applications, design patent applications, utility model applications, or similar industrial property rights for the Invention described in the name of the Assignor or in the name of the Assignee, as well as any right of priority to any patent or application of the United States or any other country or jurisdiction based on the Invention. The assigned rights include the right for the Assignee, or its legal representatives, to file any continuing, continuation, continuation-in-part, divisional, reissue, extension, or reexaminations of the Application or Invention, or any U.S., international, or foreign applications that can claim priority based on the Application. These assigned rights are to be held and enjoyed by the Assignee, its successors or assigns, as fully and entirely as the same would have been held and enjoyed by the Assignor, had this assignment not

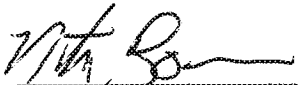

been made.

The Invention and Application shall be deemed the sole and exclusive property of Assignee and the Assignor agrees to execute any and all documents which Assignee, its successors or assigns, deem necessary to transfer, acknowledge, or assign such rights in or to the Invention and Application to Assignee, its successors, or assigns. The Assignor agrees to execute all documents which Assignee, its successors or assigns deem expedient in connection with the Application and any continuing, continuation, continuation-in-part, divisional, reissue, reexamination or other domestic, international or foreign applications on a worldwide basis concerning the Invention or that claim priority based on the Application or Invention; and any renewal, revival or substitute of any of the foregoing applications, any derivation proceedings relating to any of the foregoing applications; and, as to patents granted on the any of the foregoing applications, any supplemental examination, derivation proceeding, opposition, post grant review, reissue, re-examination, inter partes review, or extension thereof. The Assignor agrees to cooperate with Assignee, its successors or assigns in every proper way possible to obtain, defend and assert one or more patent(s) based on: the Application and any continuing, continuation, continuation-in-part, divisional, reissue, reexamination or other domestic, international, or foreign applications concerning the Invention; any renewal, revival, or substitute of any domestic or foreign applications, any derivation proceedings relating to any of the foregoing applications; and, as to patents granted on the foregoing applications, any supplemental examination, derivation proceeding, opposition, post grant review, reissue, re-examination, inter partes review, or extension thereof. The Assignor agrees to execute any and all documents which Assignee, its successors, or assigns, deem necessary to obtain, maintain and/or enforce its rights in such Invention or Application including, but not limited to, any related patent applications which Assignee elects to file in all countries in the world and to fully cooperate with Assignee in the obtaining, maintaining and enforcement of any intellectual property protection sought or obtained for such Inventions including providing any testimony required to obtain, maintain and/or enforce such rights. The Assignor hereby authorizes any patent office in the world to issue any letters patent based on the assigned rights to the Assignee. The Assignor hereby covenants that he has not made and will not make any assignment, sale,

license, agreement or encumbrance which would conflict with this Assignment.

This Assignment includes the right of Assignee to pursue and/or recover, through suit or otherwise, any past, present or future relief provided for by the United States patent laws, or the laws of a foreign country, including but not limited to pre-issuance and post-issuance damages, for any patent issuing on the Application or Invention or on any application identified above.

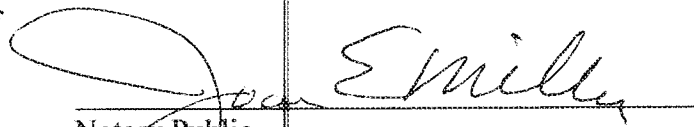

The inventor and Assignor Norton Baum declares and agrees to all provisions of this Assignment by signing below.
