For valuable and sufficient consideration from Provisur Technologies, Inc. (hereinafter referred to as "Assignee"), a Delaware corporation having its principal place of business at 222 North LaSalle Street, Suite 720, Chicago, IL 60601, receipt of such consideration being hereby acknowledged by Formax, Inc. (hereinafter referred to as "Assignor"), an Illinois corporation having its principal place of business at 9150 191<sup>st</sup> Street, Mokena, Illinois 60468, Assignor hereby sells, assigns, and conveys unto Assignee, its successors and assigns, its entire right, title and interest:

(1) in and to an invention entitled "HIGH SPEED SLICING MACHINE," which was given United States Application Serial No. 16/017,346, filed on June 25, 2018, now U.S. Application Publication No. 2018/0311853; and

(2) in and to said United States Patent Application and in and to all other patent applications now or hereafter filed in the United States (including divisional, continuation, reexamination, and reissue applications, and legal equivalents thereof) based upon said invention(s), and in and to said patent granted thereon or issued therefrom, and all other patents now or hereafter granted thereon or issued therefrom, including reissues or the like thereof, if any, to the full end of the term or terms for which said patent or patents may be granted or issued.

This assignment expressly includes the complete right to enforce the invention described herein, including all rights of action, injunctive and equitable relief, damages for all past, present, and future infringement, and the recovery of all past, present, and future damages, including, but not limited to, reasonable royalties and lost profits, for any violation of the invention's United States patent or patent application rights.
