ASSIGNMENT

This Assignment is made

BETWEEN:

Johannes Robert FISCHER, a German citizen residing at Bernauer Chaussee 13, 16348 Wandlitz, Germany

(the "inventor");

AND:

TomTom Development Germany GmbH, a German corporation of Inselstraße 22, D-04103 Leipzig, Germany (hereinafter "TTDG");

AND:

TomTom Navigation B.V., a Dutch corporation of De Ruijterkade 154, 1011 AC Amsterdam, Netherlands (hereinafter "TTN").

WHEREAS, the inventor, during the course of his employment with TTDG, has invented:

METHODS AND SYSTEMS FOR GENERATING ROUTES

Docket ID No. 1127/PCT

and in respect of which has been filed:

United Kingdom Patent Application No. 1514986.7 on 24 August 2015;

International Patent Application No. PCT/EP2016/070014 on 24 August 2016.

WHEREAS, pursuant to a Research and Development Agreement having an effective date of 30 August 2014 between TomTom International B.V. (TTI) and TTDG, all intellectual property rights created in the course of the performance of research and development services by TTDG relating to the further development and design of products and services related to the Navigation business shall vest in and be the absolute property of TTI.

WHEREAS, the Research and Development Agreement was demerged to TTN as part of the assets relating to the Navigation business that were demerged from TTI according to the Demerger Proposal dated 31 March 2015 and the subsequent Deed of Demerger and Incorporation of TTN with an effective date of 2 June 2015.

NOW, THEREFORE, for good and valuable consideration, the receipt and adequacy of which is hereby acknowledged, the Inventors and TTDG confirm any prior assignment to TTN and the right of TTN to file the aforementioned applications, and to the extent that the Inventors and/or TTDG, as appropriate, have not already done so, hereby assign and transfer unto TTN and its successors in interest, the full and exclusive right, title and interest in any country of the world, including the right to claim priority under the laws of the United States, the Paris Convention, and any foreign countries, to the invention(s) as described in the aforementioned applications, to the applications themselves, and all divisions, continuations, continuations-in-part, national phase applications or other applications claiming priority directly or indirectly from the aforementioned applications, and any patents, registered designs, utility models, or other similar rights which may be granted thereon, including reissues, reexaminations and extensions thereof, and all copyright and unregistered design rights throughout the world in the applications and the subject matter disclosed therein, these rights, title and interest to be held and enjoyed by TTN to the full end of the term for which the patents, utility models, registered designs or other similar rights, are granted and any extensions thereof as fully and entirely as the same would have been held by the Inventors and/or TTDG, as appropriate, had this assignment not been made, and the right to sue for, and recover for past, present and future infringements of, or liabilities for, any of the rights relating to any of the applications, patents, registered designs, utility models, or other similar rights, resulting therefrom, and the copyright rights;

the Inventors and/or TTDG, as appropriate, hereby covenant and agree to execute all instruments or documents required or requested for the making and prosecution of any applications of any type for patent, utility model, registered design or other similar rights, and for copyright, in any country of the world including, but not limited to, any provisional, continuation, continuation-in-part, divisional, renewal or substitute thereof, and as to letters patent any reissue, re-examination, or extension thereof, and for litigation regarding, or for the purpose of protecting title in and to the invention(s), the applications and patents in respect thereof, and to testify in support thereof, for the benefit of TTN without further or other compensation than that above set forth.
