WHEREAS, We, Karl G. Horschel, of Springville, NY and Aaron J. Neyman of Collins, NY (“Assignors”), have invented certain new and useful improvements in a Torsional Vibration Damper and Method of Making a Torsional Vibration Damper, for which U.S. Provisional Patent Application No. 62/644,881 entitled “Torsional Vibration Damper and Method of Making a Torsional Vibration Damper” was filed on March 19, 2018, and for which a U.S. non-provisional patent application is being filed (the "Applications"); and

WHEREAS, Horschel Brothers Precision LLC, (“Assignee”) a New York limited liability company having a place of business at 180 Zoar Valley Road, Springville, NY 14141, is desirous of acquiring all right, title and interest in and to the Applications, the invention described therein, and any and all applications and patents claiming priority therefrom.

NOW, THEREFORE, in consideration of the sum of Ten Dollars (\$10.00), and other good and valuable consideration to me in hand paid, the receipt and sufficiency of which is hereby acknowledged, I do hereby assign, sell, transfer, convey and set over to Assignee, free and clear of all liens, encumbrances and other restrictions or obligations, my entire right, title and interest in and to (i) the Applications, (ii) all inventions described in the Applications and all patent applications relating thereto which have been or shall be filed in any countries or regions designated in the Applications, (iii) all applications claiming the benefit of the filing date or claiming priority, directly or indirectly, from any of the foregoing, including without limitation any and all regional applications, national applications, divisional applications, continuation applications, continuation-in-part applications, reissue applications, reexaminations and extensions, (iv) all rights, including without limitation all priority rights, under any international conventions, unions, agreements, acts and treaties, (v) all patents issuing or reissuing, directly or indirectly, from any of the foregoing, (vi)

all other forms of protection that may be provided in any country for the Applications, the invention described therein, or the disclosure therein, and (vii) all claims for damages, injunctive relief and all other remedies arising out of any infringement or violation of any of the foregoing assigned rights, with the right to sue for past infringement and to collect and retain damages that may have accrued prior to the effective date of this Assignment, or which have accrued or may hereafter accrue, for Assignee's own use and benefit and for the use and benefit of Assignee's successors, assigns and other legal representatives (all of the foregoing hereafter referred to collectively as the "Subject Property").

AND I do hereby acknowledge and agree that Assignee, as the assignee of the entire right, title and interest thereto, shall have sole control over and sole and absolute discretion with respect to any decisions regarding the Subject Property, including without limitation with respect to any decisions regarding where to file patent applications and the prosecution and maintenance of any patent applications or patents.

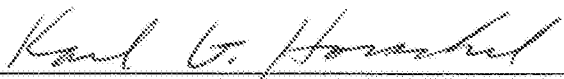

AND I do hereby authorize and request that any patents issuing from any of the Subject Property be issued to Assignee, as the assignee of the entire right, title and interest thereto.

AND I do hereby agree, upon request of Assignee, to execute any and all documents that Assignee deems necessary or convenient to vest or record title in and to any of the Subject Property in Assignee, and to provide such other material, information or assistance related to the Subject Property as Assignee may deem necessary or convenient.

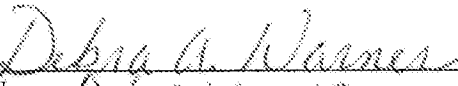

AND I do further understand, confirm and acknowledge that in executing this document I am transferring my entire interest in and to the Subject Property to Assignee, and that the attorney(s) appointed in the Applications also represent Assignee and any co-inventor(s) identified in the Application. I consent to such multiple representation for the purpose of prosecuting any of the

foregoing patent applications, and do hereby authorize the attorney(s) to take all future instructions from Assignee. I am unaware of any potential interest that I may have that differs from, or is adverse to, that of Assignee with respect to the prosecution of the foregoing patent applications, and I further acknowledge that, prior to executing this document, I did not seek or obtain any legal advice from Assignee's attorney(s) with respect to this Assignment and that I have been informed of my right to seek independent counsel of my own choosing and at my personal expense.
