PATENT APPLICATION ASSIGNMENT AGREEMENT

Dean MASON, residing at 116 Horseman Association Road, Tallahassee, Florida 32304 (the "Assignor") has invented certain new and useful improvements (the "Inventions") for which patent applications have been applied for in the United States of America (the "Applications"), as listed in attached **Exhibit A**.

SUPERIOR TRANSMISSION PARTS, INC., a Florida corporation, located at 3770 Hartsfield Road, Tallahassee, Florida 32303 (the "Assignee"), wishes to acquire the entire right, title, and interest to any patent in the United States of America and worldwide that may be granted for the Inventions and/or based upon the Applications and the entire right, title, and interest to make, use, and sell the Inventions within the United States of America, its territorial possessions, and worldwide.

In consideration of \$1.00 (USD) paid to the Assignor, and other good and valuable consideration, which the Assignor acknowledges receipt of, the Assignor assigns, sells, and transfers to the Assignee the entire right, title, and interest in the Inventions and the Applications listed in Exhibit A, and in all applications, in the United States or worldwide, for patents that claim priority, or may claim priority in the future, to the Applications, including divisional, continuation, continuation-in-part, reissued, and/or re-examined applications, and in any United States of America patent and in any patent of a foreign jurisdiction, all reissues and extensions thereof that may be granted, together with the right to extend the protection for any resulting United States patent to the various territorial possessions now owned or which may be hereafter acquired by the United States of America, together with all rights of priority granted by local laws and treaties including any international convention, for the protection of industrial property, all rights conveyed herein to be held and enjoyed by the Assignee for its own use and benefit, and for the use and benefit of the Assignee's successors or assigns, to the full end of the term for which any patent or industrial property right for the Invention are enforceable, as fully and entirely as the same would have been held and enjoyed by the Assignor if this assignment had not been made. The Assignor hereby authorizes any and all patents and any and all industrial property rights, when granted, to issue in accordance with this assignment to the Assignee.

Patent Application Assignment Agreement
Dean Mason and Superior Transmission Parts, Inc.

The Assignor further warrants to the Assignee that the Assignor has not encumbered title to the Inventions and Applications, or otherwise conveyed any interest to the Inventions and Applications to a party other than the Assignee at the time this Agreement is made.

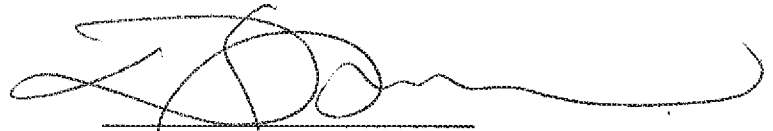

The Assignor further agrees, without demanding any further consideration, at the request but at the expense of the Assignee, to do all lawful and just acts, including executing and acknowledging instruments, furnishing information, and giving testimony that may be or become necessary for obtaining, sustaining, or reissuing a United States patent or foreign patent, and for maintaining and perfecting the Assignee's right to the Inventions and any patent and industrial property right granted for the Inventions, such as in cases before the United States Patent and Trademark Office, federal or state litigation, and similar legal disputes.

This agreement may be signed in counterparts.

The Assignor and Assignee authorize attorneys of Dowell & Dowell, P.C. to complete and/or edit procedural or ministerial information of this agreement, before or after execution, to comply with local jurisdiction recordation requirements.
