For valuable consideration, the receipt and sufficiency of which is acknowledged, I, **Albert W. Reeves** (hereinafter referred to as Assignor), hereby assign to **Safe Tree Products, LLC**, a Limited Liability Company of the State of Massachusetts, having its principal place of business at **254 Winthrop Street, Rehoboth, MA 02769**, United States of America, and its successors and assigns (collectively hereinafter called "the Assignee"), the entire right, title, and interest throughout the world in the inventions and improvements which are disclosed in or the subject of an application for United States Patent signed by Assignor entitled:

CHAINSAW SCABBARD

which is identified by Attorney Docket No. **SAFE2004D** for which an application of United States Letters Patent was filed on February 22, 2019, assigned Application Serial No. 29/681,191 (hereinafter the "Application"). (**McInnes & McLane LLP** is hereby authorized to insert the application serial number and/or filing date hereon, when known).

This Assignment includes: (i) the Application; (ii) continuation, continuation-in-part, divisional and other United States applications which claim priority to the Application; (iii) all foreign and international applications which claim priority to the Application; (iv) any and all United States and foreign patents, utility models, inventor's certificates, and design registrations granted for any of the inventions or improvements disclosed in or the subject of the Application, and (v) the right to claim priority based on the filing date of the Application under the United States Code, the International Convention for the Protection of Industrial Property, the Patent Cooperation Treaty, the European Patent Convention, and all other statutes or treaties of like purposes.

Assignor authorizes the Assignee to apply in all countries in his name or in his own name for patents, utility models, design registrations, inventor's certificates and like rights of exclusion for any inventions or improvements which are disclosed in or the subject of the Application. Assignor agrees for himself, and his heirs, legal representatives and assigns, without further compensation, to perform such lawful acts and to sign such further applications, assignments, preliminary statements and other lawful documents as the Assignee may reasonably request to effectuate fully this Assignment.

Assignor covenants that he has the full right to convey the interests assigned by this Assignment, and that he has not executed and will not execute any agreement in conflict with this Assignment. Assignor further agrees that he will, without further consideration: (i) promptly disclose to Assignee's patent attorney any prior art known to Assignor during the pendency of the Application or other US or foreign related applications; (ii) testify in any legal or administrative proceeding and participate in any examiner interview relating to the inventions or improvements described in or subject of the Application; and (iii) provide reasonable assistance to the Assignee to obtain and enforce proper patent protection for the inventions and improvements described in or subject of the Application.

This Assignment and all disputes under this Assignment shall be governed by the laws of the State of Georgia. Any and all claims, lawsuits, or disputes of any kind between Assignor and Assignee shall be resolved in federal or state courts in the State of Georgia.

In testimony whereof, Assignor has hereunto set his hand.
