CORRECTIVE ASSIGNMENT

This assignment is executed for the purpose of correcting an obvious typographical error in the combined Declaration and Assignment executed for this same invention on March 16, 2018. This Corrective Assignment corrects the name of the Assignee from "AFTON CHEMICAL COMPANY" to "AFTON CHEMICAL CORPORATION." This is an obvious error since the entity "AFTON CHEMICAL COMPANY" does not exist. This Corrective Assignment is effective as of March 15, 2018, the date of execution of the original Assignment for this invention.

WHEREAS, AFTON CHEMICAL CORPORATION
of 500 Spring Street, Richmond, VA 23219,

its heirs, successors, legal representatives and assigns (hereinafter designated as the assignee) is desirous of acquiring the entire right, title and interest in and to the invention described in U.S. Patent Application No. **15/923,435** filed on **March 16, 2018** for "**LUBRICANTS CONTAINING AMINE SALT OF ACID PHOSPHATE AND HYDROCARBYL BORATE**" and in and to any Letters Patent(s) that may be granted therefor in the United States of America and **in any foreign countries**.

For and in consideration of the sum of One Dollar (\$1.00) to me in hand paid by said assignee, and other good and valuable consideration, the receipt of which is hereby acknowledged, I, the said assignor, have sold, assigned, transferred and set over, and by these presents do hereby sell, assign, transfer and set over to said assignee, the entire right, title and interest in and to said invention(s) or improvement(s) and said application(s) including the right to claim priority to the application(s) in any application entitled to claim such priority under national law, international conventions, treaties or otherwise, and any and all continuations, divisions and renewals of and substitutes for said application(s), and in, to and under any and all Letters Patent which may be granted on or as a result thereof in the United States and any and all other countries, and any reissue or reissues or extension or extensions of said Letters Patent, and assign to and authorize said assignee, to file in our name applications for Letters Patent in all countries, the same to be held and enjoyed by said assignee, its successors, assigns, nominees or legal representatives, to the full end of the term or terms for which said Letters Patent respectively may be granted, reissued or extended, as fully and entirely as the same would have been held and enjoyed by us had this assignment, sale and transfer not been made.

AND I hereby covenant that I have full right to convey the entire interest herein assigned, and that I have not executed and will not execute any agreement in conflict herewith, and I further covenant and agree that I will each time request is made and without undue delay, execute and deliver all such papers as may be necessary or desirable to perfect the title to said invention(s) or improvement(s), said application(s) and said Letters Patent to said assignee, its successors, assigns, nominees, or legal representatives, and I agree to communicate to said assignee or to its nominee all known facts respecting said invention(s) or improvement(s), said application(s) and said Letters Patent, to testify in any legal proceedings, to sign all lawful papers, to execute all disclaimers and divisional, continuing, reissue and foreign applications, to make all rightful oaths, and generally to do everything possible to aid said assignee, its successors, assigns,

nominees and legal representatives to obtain and enforce for its or their own benefit proper patent protection for said invention(s) or improvement(s) in any and all countries.

AND I hereby authorize and request the Director – U.S. Patent and Trademark Office and any official of any country or countries foreign to the United States whose duty it is to issue patents on application(s) as aforesaid, to issue to said assignee, as assignee of the entire right, title and interest, any and all Letters Patent for said invention(s) or improvement(s), including any and all Letters Patent of the United States which may be issued and granted on or as a result of the application(s) aforesaid, in accordance with the terms of this assignment.
